Subcommittee on Energy and Environment,1998 The Human Quality A. Peccei,2013-10-22 An autobiographical statement of the author's belief in the global approach to development and world problems How can the human species survive the crisis of its own extraordinary technological success In this truly unique book Aurelio Peccei shows us that the solution cannot be found in external factors It must lie in re-establishing a sound cultural balance within man himself so that he becomes capable of living in harmony with the new human condition and changed world environment Only by a cultural revolution which changes the human quality can we control and orient the material revolutions Aurelio Peccei's distinguished career in industry conservation international affairs and as a counsellor on major world problems needs little introduction He was a founder member of the Club of Rome in 1968 and has been a member of its Executive Committee ever since Inevitably he draws upon his wisdom and experience to highlight the arguments in his book **The Human Venture** Elizabeth Neumeyer,1996 **Nature and the Human Soul** Bill Plotkin,2010-10-04 Addressing the pervasive longing for meaning and fulfillment in this time of crisis *Nature and the Human Soul* introduces a visionary ecopsychology of human development that reveals how fully and creatively we can mature when soul and wild nature guide us Depth psychologist and wilderness guide Bill Plotkin presents a model for a human life span rooted in the cycles and qualities of the natural world a blueprint for individual development that ultimately yields a strategy for cultural transformation If it is true as Plotkin and others observe that we live in a culture dominated by adolescent habits and desires then the enduring societal changes we so desperately need won't happen until we individually and collectively evolve into an engaged authentic adulthood With evocative language and personal stories including those of elders Thomas Berry and Joanna Macy this book defines eight stages of human life Innocent Explorer Thespian Wanderer Soul Apprentice Artisan Master and Sage and describes the challenges and benefits of each Plotkin offers a way of progressing from our current egocentric aggressively competitive consumer society to an ecocentric soul based one that is sustainable cooperative and compassionate At once a primer on human development and a manifesto for change *Nature and the Human Soul* fashions a template for a more mature fulfilling and purposeful life and a better world *Journal of Small Business and Entrepreneurship* ,1986 *The Conspiracy against the Human Race* Thomas Ligotti,2018-10-02 In Thomas Ligotti's first nonfiction outing an examination of the meaning or meaninglessness of life through an insightful unsparing argument that proves the greatest horrors are not the products of our imagination but instead are found in reality There is a signature motif discernible in both works of philosophical pessimism and supernatural horror It may be stated thus Behind the scenes of life lurks something pernicious that makes a nightmare of our world His fiction is known to be some of the most terrifying in the genre of supernatural horror but Thomas Ligotti's first nonfiction book may be even scarier Drawing on philosophy literature neuroscience and other fields of study Ligotti takes the penetrating lens of his imagination and turns it on his audience causing them to grapple with the brutal reality that they are living a meaningless nightmare and anyone who feels otherwise is simply acting out an optimistic fallacy

At once a guidebook to pessimistic thought and a relentless critique of humanity's employment of self-deception to cope with the pervasive suffering of their existence *The Conspiracy against the Human Race* may just convince readers that there is more than a measure of truth in the despairing yet unexpectedly liberating negativity that is widely considered a hallmark of Ligotti's work

The Human Side of Mergers and Acquisitions Anthony F. Buono, James L. Bowditch, 2003 This eye-opening study based on the authors' direct and personal observation of a bank merger has three basic analytical focuses: the human issues presented by mergers at both an individual and a cultural level; the organizational issues that these human concerns raise; and the resulting implications for managing the merger and acquisition process With keen insight the authors delve into a complex web of reactions The intrigues, cultural clashes, hostilities and tensions that emerged from this friendly merger are mind-boggling The dynamics that characterized the dual nature of the merger run the gamut of human responses to a stressful situation: trust and betrayal, openness and deception, hope and despair, support and retaliation, all driven by nascent opportunities or restricted options This impressive study has many lessons to teach about the role that human resource considerations should play in any large-scale organizational change

The Gift of Beauty and the Passion of Being William Desmond, 2018-07-06 This book gathers a set of reflections on the gift of beauty and the passion of being There is something surprising about beauty that we receive and that moves the passion of being in us The book takes issue with an ambiguous attitude to beauty among some who proclaim their advanced aesthetic authenticity Beauty seems bland and lacks the more visceral thrill of the ugly; indeed the excremental We crave what disrupts and provokes us, not what gives delight or even consoles By contrast, attention is given to how beauty arouses enigmatic joy in us and we enjoy an elemental rapport with it as other Surprised by beauty, our breath is taken away but we are more truly there with the beautiful when we are taken outside of ourselves We are first receivers of the gift of surprise and only then perceivers and conceivers My attention to the passion of being stresses a patience, a receptivity to what is other What happens is not first our construction There is something given, something awakening, something delighting, something energizing, something of invitation to transcendence The theme is amplified in diverse reflections on life and its transient beauty, on soul music and its relation to self, on the shine on things given in creation, on beauty and Schopenhauer's dark origin, on creativity and the dynamis in Paul Weiss's creative ventures, on redemption in Romanticism, in the thought of Stanley Cavell, on theater as a between or metaxu, on redeeming laughter and its connection with the passion of being
