*Exploring Themes in the Hundred Penny Box* Gare Thompson,Perfection Learning (Firm),1993      Handbook of Research on Children's and Young Adult Literature Shelby Wolf,Karen Coats,Patricia Enciso,Christine Jenkins,2011-04-27 This

landmark volume is the first to bring together leading scholarship on children's and young adult literature from three intersecting disciplines: Education, English, and Library and Information Science. Distinguished by its multidisciplinary approach, it describes and analyzes the different aspects of literary reading texts and contexts to illuminate how the book is transformed within and across different academic figurations of reading and interpreting children's literature. Part one considers perspectives on readers and reading literature in home, school, library, and community settings. Part two introduces analytic frames for studying young adult novels, picturebooks, indigenous literature, graphic novels, and other genres. Chapters include commentary on literary experiences and creative production from renowned authors and illustrators. Part three focuses on the social contexts of literary study with chapters on censorship, awards, marketing, and literary museums. The singular contribution of this Handbook is to lay the groundwork for colleagues across disciplines to redraw the map of their separately figured worlds, thus to enlarge the scope of scholarship and dialogue as well as push ahead into uncharted territory.

**Theme Play** Gary Zingher, 2006-06-30. Out of his years of experience in working with children, Zingher identifies some of the powerful and evocative themes of childhood and explores why these touch children so deeply. He encourages professionals who work with children in school, camp, club, and library settings to consider using these themes to develop thoughtful and creative programs and units of study. Included are recommended books and videos that illustrate each theme, questions for discussion, possible starting points, readalouds, stories to be told, sensory experiences, interesting objects, etc., follow-up activities, and examples of fully described and developed thematic journeys. In this time of standards and accountability, this book reminds us of the joy of teaching and learning and the power of the imagination.
