RESEARCH ON TERRORISM

A Review of the Impact of 9/11 and the Global War on Terrorism

Andrew Silke

School of Law, University of East London, London, U.K. (a.silke@uel.ac.uk)

CHAPTER OVERVIEW

This survey of terrorism research focused on research studies published in the first five years after the 9/11 attacks. It highlights a number of positive trends which can be seen in this initial period after 9/11. To begin with, it is clear that more researchers are working on the subject than before and there has been a real increase in collaborative studies. This allows studies to be more ambitious in both data-collection and data analysis, though there has only been a very small shift away from literature review-based research. There has, however, been a much more promising increase in the use of descriptive and inferential statistical analysis. The use of inferential statistics on terrorism data in particular has more than trebled since 9/11, a trend which can only help improve the reliability and validity of the conclusions being reached by researchers. Admittedly, this is an increase starting from an extremely low level indeed (and still compares poorly to core journals in other areas) but it is unquestionably a major step in the right direction.

Nkwazi Nkuzi Mhango, 2017-12-06 Global War on Terrorism or Global War over Terra Africana How Imperial Powers Seek to Occupy Africa Militarily is a long onerous academic voyage of the demystification and demythologization of the Global War on Terror former US president George W Bush and former UK premier Tony Blair conceived envisaged and declared for their hidden personal and national interests It is a hidden and untold story of the other side about the GWOT which is but the GWOTA Major arguments presented gyrate around the deconstruction and overhaul of the GWOT so that it can be equally formulated and fought by all nations for the interests of all but not the interests of some as it currently is Also the book repudiates the pontification the pontifices maximus of the GWOTA have always made ex nihilo while concealing their drive s for perpetually exploiting poor countries Terrorism is a world phenomenon everybody must fight provided it is collectively agreed decided and declared for the collective good and interests of the world but not the interests of a few hegemonic countries that usurped the power of declaring who is a terrorist and who is not Although terrorism is real the manner it is fought is a little bit knotty This tome acts as an eye opener and a wake up call for Africa to start interrogating and excavating the hidden truths about the GWOT chiefly the way it was enacted declared presented and now fought with essentialist and controversialist modus operandi and rationale Other major questions asked and answered are Why exporting military and military hardware guised as fighting terrorism without underscoring the terror military incursion will inter alia cause to Africa especially If truly the aim of the GWOT is to wage war on terror why doesn t the West want to empower African armies Why did the US appoint itself to lead the war conceived and declared without meeting the requirements of the just war or international standards Why hasn t the world learned from Iraq and Libya whose governments were toppled

under the facade of the GWOT Is it the GWOT or the GWOTA *Chechnya - Russia's 'War on Terror'* John Russell, 2007-08-07 Providing a comprehensive overview of the Russo Chechen War the author examines the origins of the conflict historically and traces how both sides were dragged inexorably into war in the early 1990s The Routledge Handbook of Terrorism Research Alex Peter Schmid, 2011 This volume is a monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources which is now being revised and updated as a resource for the expanding community of researchers on the subject of terrorism *The War Report* Stuart Casey-Maslen, 2014 This work identifies describes and discusses all situations of armed violence in 2013 that amounted to armed conflicts in accordance with the definitions recognized under international humanitarian law IHL and international criminal law ICL **Contemporary Debates on Terrorism** Richard Jackson, Daniela Pisoiu, 2018-09-03 Contemporary Debates on Terrorism is an innovative textbook addressing a number of key issues in terrorism studies from both traditional and critical perspectives This second edition has been revised and updated to cover contemporary issues such as the rise of ISIL and cyberterrorism In recent years the terrorism studies field has grown in quantity and quality with a growing number of scholars rooted in various professional disciplines beginning to debate the complex dynamics underlying this category of violence Within the broader field there are a number of identifiable controversies and questions which divide scholarly opinion and generate opposing arguments These relate to theoretical issues such as the definition of terrorism and state terrorism substantive issues like the threat posed by al Qaeda ISIL and the utility of different responses to terrorism different pathways leading people to engage in terrorist tactics and ethical issues such as the use of drones This new edition brings together in one place many of the field's leading scholars to debate the key issues relating to a set of 16 important controversies and questions The format of the volume involves a leading scholar taking a particular position on the controversy followed by an opposing or alternative viewpoint written by another scholar In addition to the pedagogic value of allowing students to read opposing arguments in one place the volume will also be important for providing an overview of the state of the field and its key lines of debate This book will be essential reading for students of terrorism studies and political violence critical terrorism studies security studies and IR in general **Balkan Fighters in the Syrian War** Tanja Dramac Jiries, 2021-09-15 This book analyses the process of the recruitment of foreign fighters from the Western Balkans specifically Bosnia and Herzegovina and Kosovo to Syria and Iraq from 2012 to 2015 Utilizing in depth semi structured interviews with foreign fighters and their families as well as a number of relevant stakeholders it answers the question of what were the processes and circumstances leading up to the departure of foreign fighters from Bosnia and Herzegovina and Kosovo and what informed their agency The author draws on the theories of social movement approaches more specifically contentious politics literature and utilizes the specific concepts of triggering mechanisms which refer to the enabling circumstances that make the radicalization and departure possible and pleasure in agency to elaborate on individual motivation The book also shows how a wider state fragility within the context of

the post Yugoslav wars and the transitional period that never ended aided radicalization and how an incomplete process of post war transition can fuel the process of political and religious radicalization creating a wider enabling web for recruitment It will be of interest to students and scholars of Southeast European politics and foreign policy post war democratic transition security policy and radicalization more broadly *The Political Economy of Risk in Finance and the Military* Marc Schelhase, 2022-12-12 This book is about risk conceptions experiences and reflections It applies the concept of the risk triangle with its societal organisational and personal angles to two areas of inquiry financial markets and the military seeking to demonstrate the challenges dilemmas and in many ways also the impossibilities of risk analysis and risk management Drawing on empirical and micro and macro level analysis this innovative work will appeal to students of political science economics and business as well as to risk professionals and risk takers The Role of the Highest Courts of the United States of America and South Africa, and the European Court of Justice in Foreign Affairs Riaan Eksteen, 2019-06-22 This book deals with what the author considers a sorely neglected question namely the role of the judiciary in states foreign policy processes Eksteen argues that the impact of the judiciary on foreign affairs is understudied and that recognition of its role in foreign affairs is now due This makes it a ground breaking scholarly contribution that should first of all prove of value to students scholars researchers and practitioners in the two broad fields of politics and law for the wide scope of issues it covers and the very comprehensive reference lists it contains Secondly professionals working within politics including members of the legislatures of the United States the European Union and South Africa as well as members of the judiciaries there should find this book of benefit A detailed examination has been undertaken of the role of the United States Supreme Court the two high courts in South Africa namely the Constitutional Court and the Supreme Court of Appeal and the European Court of Justice of the European Union in foreign affairs The author substantiates the unmistakable fact that these Courts have become involved in and influence foreign affairs Furthermore that they have not shied away from using their judicial authority when dealing with cases touching on foreign affairs and especially presidential overreach The lack of recognition of the judiciary's role in foreign affairs is still noticeable in Foreign Policy Analysis FPA literature This book concludes that FPA has to accept and give proper recognition to the judiciary and its increasing relevance in foreign affairs Dr Riaan Eksteen is a Former South African Ambassador residing in Namibia from 1968 1973 he served at the South African Embassy in Washington D C between 1976 1994 he subsequently served as Ambassador and Head of Mission at the U N in New York 1976 81 in Namibia 1990 91 at the U N in Geneva 1992 94 and in Turkey with accreditation also to Azerbaijan Kyrgyzstan Turkmenistan and Uzbekistan 1995 97 He obtained his Ph D from the University of Johannesburg in October 2018

Political Economy of Globalization: Financialization & Crises Mehak Anjum Siddiquei, Giorgi Benashvili, Hamza Şimşek, Sidar Atalay Şimşek, Berna Uymaz, Orhan Şimşek, Nalan Kangal, İlhan Eroğlu, Mustafa Necati Çoban, Kaan Yiğenoğlu, Nagehan Karanfil, Ümit İzmen, Barış Kocaarslan, Başak Ergüder, Ömer Yalçınkaya, Halil İbrahim Aydın, 2016-12-28 This edited book is a collection of selected papers presented at the International Conference of Political Economy ICOPEC 2016 The deliberate employment of the term political economy in the title International Conference of Political Economy implies the fact that economics is perceived as an integral part of social phenomena in the International Conference of Political Economy ICOPEC Accordingly even if economic institutions and relations form the foundations of society in the contemporary world economic development is dependent on social power and dynamics while economic policies per se are shaped by not only technical processes but also diverse interests and choices

Within this context politics is involved in every encounter between different economic classes social groups and genders being shaped by the visions of a better life as the subject matter of philosophy ethics and religion and at times it finds its best expression in art Law on the other hand is the embodiment of all social relations which are in their essence political Thus this conference does not reduce society to market relations only despite positioning the economy in the heart of social relations Above all it considers the society as a political entity Indeed everything constitutes the subject matter of politics The arguments in favour of purifying market relations from the influence of politics and the discourse that they take place on their own right serve to disguise the conflicts of interest and power asymmetries inherent therein This conference regards man as homo politicus as Aristoteles put it rather than homo economicus In 2016 ICOPEC conferences were turned into a conference series with its 7th conference and the main theme of the 7th conference was determined as State Economic Policy Taxation and Development IJOPEC Publication has undertaken to publish selected papers presented at this conference in English and Turkish in five different edited books In the 90s the phenomena of globalization managed to dominate political popular and academic debates While reading a newspaper or a book watching television surfing the Internet or participating in a demonstration we come across the links of globalization in our everyday lives Globalization as a wide term is variously blamed or credited with a huge range of negative effects e g it is often related to social problems ranging from famine to floods from pollution to poverty and from rural depopulation to urban overcrowding On the contrary globalization can be also considered as the source of success in development for instance decrease in the poverty levels economic prosperity and growth better services and enhanced awareness of human rights Nevertheless some sceptics of the benefits from globalization have also described the potential ways in transforming political economic and social relations within and between countries This transformation may lead to the benefit of human welfare worldwide T smail iriner Bryan Christiansen Julia Dobрева Introduction Political Economy of Globalization Financialization Stockhammer 2013 One key component is the magnificent growth of the financial sector Greenwood although to a softer scope similar processes can also be observed in other OECD countries Philippon Reshel 2013 The financial rise has its base in the deregulation and liberalization of the financial and economic system From this point of view financialization is the cause rather than the effect This is the major difference compared to the other approaches Financialization can affect the macro economy through four main channels These are income distribution investment in capital stock household debt and net exports and current account balances As a correction it is discussed that economic structures governed by financialization should be addressed on four dimensions a re regulation and reduction of the financial sector b redistribution of income from top to bottom and from capital to labour c re orientation of macroeconomic policies to stabilize domestic demand at non inflationary full employment levels and eventually d re creation of international monetary and economic policy coordination

Manufacturing Terrorism T. J. Coles, 2018-12-07 What if your own government deliberately creates terrorists What if their short term aims deposing regimes that no longer serve Western interests justifying invasions of sovereign nations and expanding the security state at home have long term consequences for us all What if most of the horrific bombings stabbings and vehicle attacks of recent years are connected indirectly and sometimes directly to British French and American intelligence These and other hard hitting questions are posed by T J Coles in this disturbing survey of secret political manoeuvrings and covert manipulation Welcome to the world of manufactured terrorism Backed by a wealth of documentation including court records parliamentary inquiries and little known but official publications the author exposes the role of the deep state in brutal acts of terror Exploring Operation Gladio Northern Irish terror and predominantly Islamic jihad he argues that intelligence agencies the military and governments employ six key methods to manufacture terrorism 1 Blowback attacking other countries and provoking violent responses 2 Proxies creating terrorists including al Qaeda and using them against enemies 3 Provocateurs provoking individuals from minorities into committing terrorist acts 4 Green lighting allowing terrorists to commit attacks in order to justify specific policies 5 False flags committing terrorism and blaming it on designated enemies 6 Simulations holding drills and exercises as covers for apparent terrorist acts Contrary to claims that terrorism is caused by people who simply hate our way of life and in contrast to the simplistic narrative of conspiracy websites and talk shows Coles argues that each case of terrorism needs to be evaluated separately Manufacturing Terrorism presents a complex picture that distinguishes between cases of blowback proxies false flags simulations etc It offers an indispensable briefing to help readers make sense of our chaotic and dangerous world **Handbook on the**
