Warhammer 40k 6th Edition Mini Rulebook:

One-hour Skirmish Wargames John Lambshead,2018-09-30 Many wargamers enjoy the challenge of skirmish games where instead of the strategy of vast armies portrayed by traditional wargames the focus is on the tactics of a small unit However skirmish rules are often so complex that it can take hours of rolling dice consulting tables and recording data to recreate what would in reality be a fast and furious firefight lasting just minutes Now these new rules make it possible to recapture the speed and intensity of these actions where every man and every second counts The basic rules are supported by sections which give special rules and scenarios to capture the flavor of a range of different periods from Napoleonic to Modern Warfare and beyond with Sci Fi From the 95th Rifles scouting for Wellington Western gunfights and WWI trench raids through WW2 parachute assaults or Special Forces strikes in Afghanistan or even Space Marines storming a space station Squad Firefights elegantly simple system allows you to focus on proper tactical decisions rather than rolling buckets of dice or calculating masses of modifiers

Sci-fi Skirmish Scenarios John Lambshead,2022-12-02 Welcome to The Sprawl Sci fi skirmishes are an increasingly popular genre of war game but they are more dependent than most on good scenarios to keep them varied and exciting John Lambshead has taken the work out of scenario building He presents a selection of thirty six missions of varying complexity each with clear objectives and victory conditions a map showing set up zones and some with special rules Although they are set in his imagined dystopian city of Civitas Cavernum aka The Sprawl with its factions of Scavs Proctors Cultists and Corporates the scenarios are designed to be adaptable to almost any setting and set of rules including those published in the author s One hour Skirmish Wargames In addition there are no less than three mini campaigns that link the scenarios together in various combinations But that is not all John Lambshead gives advice on designing your own scenarios and campaigns and there is even a set of tables allowing you to quickly create them through random dice rolls ensuring almost infinite variety to your games Finally there is a useful reference section listing websites of rules publishers and manufacturers of suitable miniatures and model terrain Welcome to The Sprawl but keep your gun close and your mask on *Computer Gaming World* ,1997
