Wced Economics Paper 2014 June Exam:

Research for Educational Change Jill Adler, Anna Sfard, 2016-06-17 *Research for Educational Change* presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research

The Unlawful Society Paul Battersby, 2014-08-05 Exploring the dynamics of law making in a world where the pace of technological change is outstripping our capacity to capture new forms of transnational crime this book uses the innovative concept of unlawfulness to examine the crimes of the global overworld forming a unique analysis of global order in the twenty first century

Strategies for Sustainable Territorial Development D'Auria, Anna, Sanchez-Rivas Garcia, Javier, 2025-04-08 Sustainable development has been one of the focal themes in the international debate for several decades now More recently with the intervention of local institutions and governments there has been an increasing awareness of the importance of promoting forms of local development based on endogenous valuable resources natural and cultural leading to the enhancement of the territorial heritage and the emergence of opportunities for growth for all communities due to the spread of new technologies The territorial heritage includes all the factors that characterize a territory that can be transformed into valuable resources capable of generating competitive advantage becoming levers of development It follows that the proper management and enhancement of local resources can represent a source of well being and growth both in economic and social terms The starting point must be the recognition of the heritage present in a territory and the recognition of the value including potential value *Strategies for Sustainable Territorial Development* contributes to the process of raising awareness about the importance of local resources as a lever for sustainable development that can support the territory both in terms of economic growth and in terms of social progress It is developed

based on three trajectories namely the recognition and enhancement of the territorial heritage sustainability as an approach to the use of resources and an objective of development and innovation as a tool for achieving a correct and rational use of resources Covering topics such as foreign trade industrial parks and cultural heritage this book is an excellent resource for government officials policymakers sustainability advocates professionals researchers scholars academicians and more

2024-25 RRB General Science YCT Expert Team , 2024 25 RRB General Science 576 1095 E This book covers Physics Chemistry and Biology and useful for all the competitive examinations *Reimagining the More-Than-Human City* Jamie Wang,2024-10-01 An exploration of the multifaceted urban environmental issues in Singapore through a more than human lens calling for new ways to think of and story cities As climate change accelerates and urbanization intensifies our need for more sustainable and livable cities has never been more urgent Yet the imaginary of a flourishing urban ecofuture is often driven by a specific version of sustainability that is tied to both high tech futurism and persistent economic growth What kinds of sustainable futures are we calling forth and at what and whose expense In *Reimagining the More Than Human City* Jamie Wang attempts to answer these questions by critically examining the sociocultural political ethical and affective facets of human environment dynamics in the urban nexus with a geographic focus on Singapore Widely considered a model for the future of urbanism and an emblematic new world city Singapore Wang contends is a fascinating site to explore how modernist sustainable urbanism is imagined and put into practice Drawing on field research this book explores distinct and intrarelated urban imaginaries situated in various sites from the futuristic authoritarian Supertree Grove positioned as a technologically sustainable solution to a velocity charged and singular urban transportation system to highly protected nature reserves and to the cemeteries where graves and memories continue to be exhumed and erased to make way for development Wang also attends to more contingent yet hopeful alternatives that aim to reconfigure current urban approaches In the face of growing enthusiasm for building high tech sustainable and natural cities Wang ultimately argues that urban imaginings must create space for a more relational understanding of urban environments *Biorefining of Biomass to Biofuels* Sachin Kumar,Rajesh K. Sani,2017-11-06 This volume focuses on the prospects of the conversion of biomass into biofuels including ethanol butanol biogas biohydrogen biodiesel syn gas and other useful products Biomass derived fuels have gained tremendous attention worldwide However due to high raw material and processing costs biofuels produced from lignocelluloses have been found to be more expensive than conventional fuels Therefore a concept of biorefining has been introduced where more than one product or each and every component of biomass may be derived into useful products in a manner of petroleum refinery *Gender and the Sustainable Development Goals* Astrid Skjerven,Maureen Fordham,2022-09-01 This book sheds light on the important and mostly neglected role that gender plays in achieving the UN Sustainable Development Goals doing so by investigating three key problem areas empowerment education and infrastructure Starting with a theoretical and methodological framework this edited collection contains 12

chapters from scholars and researchers from around the world The book includes numerous case studies discussing the current status of gender equality relating to the SDGs It reinforces the significance of gender for sustainable and just development highlighting how women play a major role in work organization disaster management income household maintenance and mediation of knowledge Women as a classification encompasses much diversity with many intersecting axes of difference this book focuses on the excluded and disadvantaged majority social group without imposing homogeneity on that categorization Many chapters focus on critical situations occurring in the Global South where these issues are highly prominent and importantly these contributions are written by local scholars Finally the volume provides pathways for basic and professional gender responsive education and innovation in the field The book will generate important discussions in interdisciplinary research and higher education settings focusing on sustainable development gender equality human rights and education
