Introduction to Chemistry and The Environment Baldwin King, 2002-03-06 Introduction to Chemistry and the Environment is written primarily to satisfy the need for a suitable textbook for a one semester course in chemistry and the environment for non science majors It is also suitable for persons who have no knowledge of chemistry but would like to be informed about the science behind many of the environmental issues facing the general public The pedagogical approach is first to provide the basics of chemistry in a conceptual non mathematical way using material from the environment where possible Then these principles are used to discuss many of the major issues in air and water pollution The text consists of ten brief chapters The first five chapters discuss chemical principles in a succinct but scientifically sound manner The individual instructor is encouraged to elaborate on these topics as he or she sees fit The next two chapters discuss the properties of gases especially the components of air and then issues in air pollution The next two chapters focus on the properties of water and aqueous solutions followed by issues in water pollution The final brief chapter is an attempt to put everything in perspective by discussing human health and the environment Included at the end of each chapter are some suggested readings for those who would like a more detailed discussion of the topics covered A set of discussion type questions ends each chapter Writing science for nonscientists is a difficult task However Baldwin King has used his many years as a chemical educator to produce a text which is clear and eminently readable by non chemists

An Unintended Journey

Janet Yagoda Shagam, 2013-07-16 According to the 2009 census more than five million people living in the United States have Alzheimer's disease or some other form of dementia. Not reported in these statistics are the fifteen million family caregivers who in total contribute seventeen billion hours of unpaid care each year. This book addresses the needs and challenges faced by adult children and other family members who are scrambling to make sense of what is happening to themselves and the loved ones in their care. The author, an experienced medical and science writer known for her ability to clearly explain complex and emotionally sensitive topics, is also a former family caregiver herself. Using both personal narrative and well-researched, expert-verified content, she guides readers through the often confusing and challenging world of dementia care. She carefully escorts caregivers through the basics of dementia as a brain disorder, its accompanying behaviors, the procedures used to diagnose and stage the disease, and the legal aspects of providing care for an adult who is no longer competent. She also covers topics not usually included in other books on dementia: family dynamics, caregiver burnout, elder abuse, incontinence, finances, and paying for care. The challenges same-sex families face and coping with the eventuality of death and estate management. Each chapter begins with a real-life vignette taken from the author's personal experience and concludes with Frequently Asked Questions and Worksheets sections. The FAQs tackle specific issues and situations that often make caregiving such a challenge. The worksheets are a tool to help readers organize, evaluate, and self-reflect. A glossary of terms, an appendix, and references for further reading give readers a command of the vocabulary clinicians use and access to valuable resources.

Transpacific Community Richard Jean So, 2016-05-31 In the turbulent years after World War I, a transpacific community of American and Chinese writers and artists emerged to forge new ideas regarding aesthetics, democracy, internationalism, and the political possibilities of art. Breaking with preconceived notions of an exotic East, the Americans found in China, and in the works of Chinese intellectuals, inspiration for leftist and civil rights movements. Chinese writers and intellectuals looked to the American tradition of political democracy to inform an emerging Chinese liberalism. This interaction reflected an unprecedented integration of American and Chinese cultures and a remarkable synthesis of shared ideals and political goals. The transpacific community that came together during this time took advantage of new advances in technology and media, such as the telegraph and radio, to accelerate the exchange of ideas. It created a fast-paced cross-cultural dialogue that transformed the terms by which the United States and China, or more broadly, West and East, knew each other. *Transpacific Community* follows the left-wing journalist Agnes Smedley's campaign to free the author Ding Ling from prison; Pearl Buck's attempt to fuse Jeffersonian democracy with late Qing visions of equality in *The Good Earth*; Paul Robeson's collaboration with the musician Liu Liangmo, which drew on Chinese and African American traditions; and the writer Lin Yutang's attempt to create a typewriter for Chinese characters. Together, these individuals produced political projects that synthesized American and Chinese visions of equality and democracy and imagined a new course for East-West relations.

Governance Thomas G. Weiss, Rorden Wilkinson, 2019-07-12 *Rethinking Global Governance* casts fresh eyes upon a once poignant but now languishing concept Its purpose is to disrupt the simple association between global governance and the actions and activities of international organizations in the post Cold War era and to focus instead on a set of questions that probe the intricate and multifaceted manner in which the world is governed The book moves beyond the ubiquity and imprecision that has plagued the term and offers an intellectual framework with the potential to improve both thinking and practice Building on the analytical insights of two of the leading scholars in the field *Rethinking Global Governance* provides an antidote to simplistic usage and an authoritative yet readable attempt to grasp the governance of our globe past present and future *A Floating Chinaman* Hua Hsu, 2016-06-07 Who gets to speak for China During the interwar years when
