Air University Library Index to Military Periodicals ,1995 **Military Review** ,1992 **Which Lessons Matter?** Christopher Hemmer,2012-02-01 As policy makers turn to the lessons of history to which lessons will they turn This book offers a model of the analogical reasoning process that helps answer the important question of why some historical analogies are seen as relevant for later decisions while others are ignored It explores the previously neglected possibility that analogies can do more than simply advance the pre-existing interests of decision makers but can also determine the very interests policy makers seek to further The usefulness of this approach in impacting the lessons of history is demonstrated by examining American policy toward Iran concerning American hostages from 1979 to 1987 detailing both the Carter administration's policy during the Hostage Crisis and the Reagan administration's policy that resulted in the Iran Contra Affair *Quarterly Review of Military Literature* ,1992 Professional Journal of the United States Army ,1992 *Never Take Advice from an Unscarred Man* Dennis Kolb,2011-07 In his new collection of short stories author Dennis Kolb shares the wisdom that came laced with the bumps and bruises he earned along the way through his life From hunting for whitetail deer to the challenges of looking for a job after leaving the navy Kolb shares funny moments and challenging times with wit and humor He knew he needed to be willing to make the mistakes and happily take his lumps as he journeyed toward his goal a life well lived Along the way he imparts his own brand of wisdom for example you can't reason with animals or machines and sometimes repeating the same action gets different results He knows about humiliation and he knows about success he also knows that timing is everything In *Never Take Advice from an Unscarred Man* Kolb recalls his time as a small kid through the last half of the forties his crazy teen years his life in the navy and beyond The educational bruises and mistakes Kolb recounts have had far more influence on his happiness and success than any formal education could have In these charming homespun stories he offers memories of times past for all to experience and enjoy Special Ops Orr Kelly,2017-08-08 Four military histories from a writer whose fine work should be of great interest both to casual readers and to uniformed students of special ops Publishers Weekly An expert in military affairs Orr Kelly reveals the cutting edge technology and jaw-dropping courage of the US military's elite forces on land sea and air *Brave Men* *Dark Waters* Originating in World War II as Underwater Demolition Teams the Navy SEALs are the best of the best in the armed forces known for their toughness and fearlessness and their remarkable ability to get the job any job done Facing America's enemies across

Hornet Born in 1978 the McDonnell Douglas F A 18 Hornet has forever changed the way America s wars are fought This is the fascinating true story of the controversial development and deployment of the state of the art supersonic fighter and attack aircraft with a top speed of more than one thousand miles per hour Kelly details how Hornet came to be how it was nearly doomed by an unprecedented political battle and how it has served ably in combat from its first mission in Libya to Operation Desert Storm and well beyond From a Dark Sky Very little is known about US Air Force Special Operations yet their exploits have been as daring and their achievements as remarkable as anything accomplished by their brother warriors Since World War II these ultrasecretive air commandos have routinely performed the nearly impossible from providing air support for partisans in Nazi occupied France to participating in clandestine CIA operations in Vietnam and Cambodia to secretly inserting covert operatives into North Korea From a Dark Sky is a well conceived and well executed well deserved tribute to an uncommonly fine body of American warriors Booklist

Real Characters, **Science Fiction and Fantasy Book Review** Neil Barron, R. Reginald, Robert Reginald, 2009-11

Science Fiction Fantasy Book Review was founded in 1979 to provide comprehensive coverage of all the major and minor books being released in the genre at that time. This was the golden era of SF publishing with a thousand titles old and new hitting the stands and the bookshelves each and every year. From the older classics to the newest speculative fiction this was the period when the best and the brightest shined forth their talents. SF FBR included reviews by writers in the field by amateur critics and by litt rateurs and University professors. Over a thousand books were covered during the single year of publication many of them having been reviewed nowhere else before or since. The January 1980 issue includes a comprehensive index of all the works featured during the preceding year. This reprint will be a welcome addition to the literature of science fiction and fantasy criticism.
