Civil Liability for Accidents at Sea Sarah Fiona Gahlen, 2015-02-24 This book presents a study on civil liability for accidents at sea with a focus on the interests of parties that are not contractually participating in the maritime enterprise Shipping and the maritime offshore industry are among the most international businesses in the world and the operation of ships and facilities at sea can involve very different interests in a wide variety of relationships Although there is an international legal framework that covers the most frequent types of cases questions remain regarding the interplay of international and national legislation Addressing those questions the first part of this study analyses the rules and the limits of international regulation applicable at sea namely regarding compensation for pollution damage The second part focuses on the jurisdictional rules and conflict of law rules that may be used to deal with cases beyond the scope of international legislation

in accordance with the law of the sea **Maritime Mobilities** Jason Monios, Gordon Wilmsmeier, 2017-12-01 The central concerns of mobilities research exploring the broader context and human aspects of movement are fundamental to an understanding of the maritime freight transport sector Challenges to the environment attempts at more sustainable practices changes in the geoeconomic system political power labour economic development and governance issues are all among the topics covered in this book The aim of this volume is to address issues of maritime transport not only in the simple context of movement but within the mobilities paradigm The goal is to examine negative system effects caused by blockages and inefficiencies examine delays and wastage of resources identify negative externalities explore power relations and identify the winners and losers in the globalised trade system with a particular focus on the maritime network *Maritime Mobilities* therefore aims to build a bridge between traditional maritime academic approaches and the mobilities paradigm This volume is of great importance to those who study industrial economics shipping industries and transport geography *European Ship Recycling Regulation* Urs Daniel Engels, 2013-06-12 This study provides an in depth analysis of the Hong Kong Ship Recycling Convention as adopted in May 2009 and a thorough analysis of the overall status quo of ship recycling regulations It investigates the lack of sufficient ratifications of the Convention from both a legal and an economic perspective The first part of the study focuses on the history of the Convention s entry into force provision and the rationale behind it Due to the fact that this provision provides a considerable additional obstacle to the Convention s becoming legally binding in the second part the focus of the work shifts to unilateral action in this field An overview of the legal environment of European ship recycling legislation is followed by an analysis and evaluation of a number of proposals by the European Commission attempting to tackle the problems of current ship recycling procedures With a particular emphasis on planned European measures in this regard the analysis overall message is one of cautious optimism *Port Management* H. Haralambides, 2015-07-21 *Port Management* brings together a collection of seminal papers from Palgrave s journal *Maritime Economics and Logistics* It is a dynamic volume containing contributions from leading authors with different disciplinary backgrounds representing a vast regional diversity The volume provides authoritative and timely investigations into key topics in port economics including research on global supply chains port networks choice modelling port infrastructure competition port pricing efficiency in European seaports and an analysis of Chinese container ports It is essential reading for professionals scholars and researchers interested in port economics **The Routledge Companion to the Makers of Global Business** Teresa da Silva Lopes, Christina Lubinski, Heidi J.S. Tworek, 2019-07-09 *The Routledge Companion to the Makers of Global Business* draws together a wide array of state of the art research on multinational enterprises The volume aims to deepen our historical understanding of how firms and entrepreneurs contributed to transformative processes of globalization This book explores how global business facilitated the mechanisms of cross border interactions that affected individuals organizations industries national economies and international relations The 37 chapters span the Middle Ages to

the present day analyzing the emergence of institutions and actors alongside key contextual factors for global business development Contributors examine business as a central actor in globalization covering myriad entrepreneurs organizational forms and key industrial sectors Taking a historical view the chapters highlight the intertwined and evolving nature of economic political social technological and environmental patterns and relationships They explore dynamic change as well as lasting continuities both of which often only become visible and can only be fully understood when analyzed in the long run With dedicated chapters on challenges such as political risk sustainability and economic growth this prestigious collection provides a one stop shop for a key business discipline Chapter 31 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Governance of the Global and Extra-Terrestrial Commons Michael Roe, 2023-06-26 This book provides a unique analysis of the complex relationship between governance and the global commons It has a specific reference to the dynamic and growing outer space economy and society and how experience in the maritime sector which exhibits many of the same issues and challenges as outer space can be useful in suggesting moves forward in policy making and design This book fills a large gap in the literature of both governance and the development of outer space Whilst the maritime sector has a long history of debate albeit little in terms of governance and policy making outer space has much less and what there has been commonly focused upon technical considerations The importance of this book is that the failures of maritime governance need to be avoided in the outer space sector which exhibits many of the same issues particularly those related to the global commons Innovative and exciting this book will be of interest to academics studying corporate governance business management and space capitalism

CSR and Climate Change Implications for Multinational Enterprises John R. McIntyre, Silvester Ivanaj, Vera Ivanaj, 2018 Multinational economic actors particularly corporations play a defining role in the response to the climate change or warming debate and the emerging scientific consensus This book describes explains and predicts how multinational firms will rise to the multiple challenges posed by global climate issues and the organizational and behavioral various responses of the international corporate community It focuses on three core research and learning objectives Firstly it develops the core idea that multinational enterprises cannot implement meaningful sustainability initiatives without an appropriate governance system and corporate culture Building on this notion it addresses the question of environmental sustainability across select industry sectors such as oil and banking Finally drawing on a diverse range of contributing experts it presents select best practices such as the opportunities arising from smart technologies implementation to achieve symbiotic industrial relationships directed particularly towards the ecological environment of these firms transborder operations and global reach

of heated discussion Smart Transport Networks illustrates that whether concerning road water rail or air knowledge on the structure of transport markets is crucial in order to tackle transport issues The book therefore explores key factors concerning the structure of transport markets their environmental impact and questions why decision makers often fail to tackle transport related problems Three of the key factors that underpin the relationship between transport and society are analysed in detail from a variety of perspectives each with an empirical focus market structure and the allocation mechanisms at work sustainability encompassing the characteristics of the physical environment the availability of natural resources and the effects of transport activities and decision making detailing transport policy and attempts to change transport systems Practical guidelines on how to effectively deal with complex transport issues are also presented This book will prove an important resource read for academics researchers and students with an interest in economics particularly transport and public sector economics geography and regional and urban studies Policy makers and planners in the fields of transport environment and regional planning will also find this book to be an invaluable reference tool

The Handbook Of Maritime Economics And Business 2nd Edition: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. The Handbook Of Maritime Economics And Business 2nd Edition : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. The Handbook Of Maritime Economics And Business 2nd Edition : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
