The Immanent Divine God Creation And The Human Predicament:

The Immanent Divine John J. Thatamanil, While traditional Christian thought and spirituality have always affirmed the divine presence in human life Thatamanil argues we have much to learn from non dualistic Hindu thought especially that of the eighth century thinker Sankara and from the Christian panentheism of Paul Tillich Thatamanil compares their diagnoses and prognoses of the human predicament in light of their doctrine of God or Ultimate Reality What emerges is a new theology of God and human beings with a richer and more radical conception of divine immanence a reconceived divine transcendence and a keener sense of how the dynamic and active Spirit at work in us anchors real hope and deep joy Using key insights from Christian and Hindu thought Thatamanil vindicates comparative theology expands the vocabulary about the ineffable God and arrives at a new construal of the problems and prospects of the human condition **Creation and**

Religious Pluralism David Cheetham, 2020-08-21 In the well worn debates about religious pluralism and the theology of religions there have been many different rubrics used to account for comprehend or engage with the religious other This book is chiefly a work of Christian theology and seeks to bring the doctrine of creation and the theology of religions into dialogue and in so doing it comes at things from a different direction than other works It contains an extensive exploration of the doctrine of creation and asks how it might intervene distinctively in these discourses to produce a new conceptual and practical topography It will consider inter religious engagement from the perspective of the doctrine of creatio ex nihilo that forms the dominant view in the Jewish Christian and Islamic traditions The book pays close consideration to anthropology i e creaturehood the quotidian and wisdom the idea of sabbath human action and work and vivifying the immanent through a consideration of some representative phenomenologists The book will develop these ideas in a more practical direction by considering sacraments and rituals in the public sphere as well as attempting to describe the kind of creational politics that might bring traditions into dialogue Whilst these themes challenge more conventional ways of considering relations between religions such themes because they are different from concerns commonly found in the literature can also be profitably engaged with across the spectrum of opinion i e exclusivist or pluralist etc Thus whilst the position adopted in this work is creatio ex nihilo part of the motivation is to review the ways in which this focus helps to broaden rather than limit the discussion

Existence Robert Cummings Neville,2014-06-05 Religion writes Robert Cummings Neville articulates existential predicaments and provides venues for ecstatic fulfillment Like its companion volumes treating ultimacy and religion Existence advances a systematic philosophical theology to address first order questions found in the array of Axial Age religions Issues arising in the major religious traditions are explored through a complex array of philosophical approaches This second volume shows religion to be the engagement of ultimate realities common to all human beings Neville finds five problematics relative to ultimate boundary conditions of the human world the contingency of existence living under obligation the quest for wholeness engagement with others and the meaning or value in life Common to all human beings and hence religion the engagement with realities is also historically and culturally bound becoming simultaneously socially constructed religions Readers will find Neville s philosophical theology both bold and enlightening running counter to dominant intellectual trends while richly informed by a long and fruitful engagement with theology philosophy and religion East and West

Ultimates Robert Cummings Neville,2013-09-17 Finalist for the 2015 John N Findlay Award in Metaphysics presented by the Metaphysical Society of America Robert Cummings Neville offers a new theology of the ultimate and a new theory of religion to back it up The first volume in a trilogy this book and companion volumes treating existence and religion advance a systematic philosophical theology to address first order questions found in the array of Axial Age religions Questions generally arising in the major religious traditions are interrogated with a dialectic of philosophical approaches This volume begins the project with a consideration of ultimacy defined philosophically and illustrated in a wide range of traditions To the question of how or why there is something rather than nothing Neville answers with an elaborate hypothesis about the ontological act of creation that creates all determinate things as related to but different from one another The result is the claim that there are five ultimates the ontological act the form of determinate things the components of determinate things the existential location of determinate things relative to one another and the value identity of ultimate things giving rise to five universal religious problematics of ultimacy respectively the question of existence the ground of obligation the quest for wholeness engaging others and finding meaning Neville analyzes what can and cannot be known about each of these ultimates Readers will find Neville s theory of religion and philosophy a bold one running counter to dominant trends while richly informed by a long and fruitful engagement with theology philosophy and religion East and West

Covenant and World Religions Alon Goshen-Gottstein,2023-06-06 Finalist for The Rabbi Sacks Book Prize 2023 A new paradigm for relations between religions one of acceptance and collaboration requires not only a willingness to move beyond a tradition of hostility and competition but also significant theological rethinking Within Jewish Orthodoxy there have been very few voices that have advanced and justified a vision of other faiths in this light to this day the reigning paradigm is one of practical collaboration while avoiding theologically based engagement or reflection Two of the most important

Orthodox Jewish voices advocating change have been those of Irving Yitz Greenberg and Jonathan Sacks This book presents the theological moral and social views of these two leading rabbis It focuses on the significance of covenant for both and how they adapt this concept to enable the development of a Jewish view of other religions In considering how they may have influenced each other it also studies the limitations and internal contradictions that characterize their work as they attempt to point the way forward in a spirit of dialogue to continuing theological reflection on Judaism s approach to world religions
