The Geometry Of Desert:

The Geometry of Desert Shelly Kagan, 2014-12-04 The Geometry of Desert explores the hidden complexity of moral desert Using graphs to illustrate and contrast alternative views it carefully investigates the various ways in which the value of an outcome varies when people get or fail to get what they deserve

Desert and Virtue Stephen Kershnar, 2010-01-01 Desert and Virtue A Theory of Intrinsic Value presents a comprehensive examination of desert and what makes people deserve things Stephen Kershnar demonstrates how desert relates to virtue good deeds moral responsibility and personal change and growth through the life process He persuasively argues that desert is a function that relates well being intrinsic value and a ground which is defined as a person's character or act

Desert Collapses Stephen Kershnar, 2021-08-18 People consider desert part of our moral world It structures how we think about important areas such as love punishment and work This book argues that no one deserves anything If this is correct then claims that people deserve general and specific things are false At the heart of desert is the notion of moral credit or discredit People deserve good things credit when they are good people or do desirable things These desirable things might be right good or virtuous acts People deserve bad things discredit when they are bad people or do undesirable things On some theories people deserve credit in general terms For instance they deserve a good life On other theories people deserve credit in specific terms For instance they deserve specific incomes jobs punishments relationships or reputations The author's argument against desert rests on three claims There is no adequate theory of what desert is Even if there were an adequate theory of what desert is nothing grounds justifies desert Even if there were an adequate theory of what desert is and something were to ground it there is no plausible account of what people deserve Desert Collapses will be of interest to researchers and advanced students working in ethics and political philosophy
