**An Investment Perspective on Global Value Chains** Christine Zhenwei Qiang, Yan Liu, Victor Steenberg, 2021-06-25

This report investigates the role of foreign direct investment (FDI) in helping developing countries participate in global value chains (GVCs). It combines the perspectives and strategies from three types of players: multinational corporations, domestic firms, and governments. It aims to provide practical guidance for developing countries to develop strategies that use FDI to strengthen GVC participation and upgrading. The report has six main chapters:

1. FDI and GVCs: Assesses the trade-investment nexus and analyzes the effect of FDI in countries' GVC participation and upgrading at the country level.
2. MNCs shape GVC development: Highlights MNCs' contribution to the global economy and how their business strategies shape the evolution of GVCs. The chapter also compares MNCs' business strategies in terms of outsourcing and offshoring, risk mitigation, and increasing market power across GVC archetypes.
3. Domestic firm perspectives on GVC participation: Looks at the various paths domestic firms can take to internationalize their production and trade. Investigates domestic firm characteristics that predict higher GVC participation and the effect of GVC participation on firm performance.
4. Investment policy and promotion: What is in a government's toolbox? Summarizes the various policy instruments governments have at their disposal to help attract MNCs to their country and facilitate GVC participation of domestic firms.
5. Integrating countries into GVCs: Draws on a range of case studies to illustrate how governments can develop coherent strategies and policy packages to integrate their countries into GVCs.
6. FDI and GVCs in the wake of COVID-19: Reflects the impact of COVID-19 on FDI and GVCs, the response from multinationals and suppliers, and the implications for GVC reconfiguration. In addition, there are seven case studies that offer more nuanced analysis on the GVC participation in selected countries and sectors.

Five qualitative case studies: Five countries have been selected that managed to use FDI to stimulate GVC participation using a range of approaches. By design, these five countries also cover five different GVC archetypes. These countries are:

1. Kenya horticulture
2. Dominican Republic textiles
3. Mauritius tourism
4. Malaysia electronics
5. China software

Two quantitative case studies: Rwanda, West Bengal, India. These use a combination of firm and transaction level datasets to study firm level dynamics that explain the role of multinational and domestic firms across GVCs.
