About "The Great Gatsby" by F. Scott Fitzgerald* Janina Gaiser,2018-03-06 Seminar paper from the year 2014 in the subject American Studies Literature grade 1 0 University of Constance language English abstract The Great Gatsby by Fitz Scott Fitzgerald is considered to be one of the greatest American novels one of the key themes in the book is Gatsby s dream and it will be the centre of this term paper Out of the various approaches to the book this paper will focus on the character constellation of the protagonist Jay Gatsby and Daisy the woman with whom he falls in love How does Gatsby s dream develop in connection with his fascination to Daisy Claiming that although two people are involved his dream is only focused on himself I will try to show at least to a certain extent how Gatsby s dream has three basic and related parts the desire to repeat the past the desire for money and the desire for incarnation of unutterable visions in the material earth Lockridge 1968 Since Daisy represents all of these dreams when they meet for the first time she becomes the personification of his dream but in the course of the events their paths become separated Therefore this term paper will also investigate how Gatsby s dream further develops since being

separated from Daisy and finally what happens when he meets Daisy again why does she in the end tumble short of his dreams Fitzgerald 2000 Regarding the often discussed issue whether or not Fitzgerald was writing a myth specifically about America and the American Dream or whether Gatsby's dream can attain a wider relevance I will not be able to refer to in much detail The paper will also not discuss the point of narrative but it is nevertheless crucial to mention that Gatsby is presented almost entirely through Nick's puzzled and often disapproving eyes Parkinson 1988

Psychological Politics of the American Dream Lois Tyson, 1994 While it is reasonable to assume that our national literature would offer a fertile field in which to explore the interaction between the ideological and psychological dimensions of American life critics generally have kept these two domains separate and the dominant model has consisted of an archaic notion of the individual in society

Discourse and Style Dan Shen, 2024-12-02 This book examines overlaps differences and complementarities between narratology and stylistics and shows the consequences of this examination for the practical analysis of prose narrative Narratology identifies discourse as one of its two main objects of study story being the other and stylistics of course designates style as its concern Too often however work in each of these fields proceeds without attention to developments in the other This book corrects that situation by looking beneath the superficial similarities between the discourse of narratology and the style of fictional stylistics The author shows that the two seemingly interchangeable terms actually refer to different textual elements For example both narratology and stylistics identify point of view as an important element of discourse and style respectively but each approach conceives of it differently and thus analyzes it differently This book argues that the different analyses are

complementary and shows how they can be brought together This synthesis leads to richer conceptions of point of view as well as more comprehensive and precise analyses of its functions and effects in individual narratives For its theoretical and interpretive contributions this book will appeal to scholars and students in narrative studies literary stylistics and literary theory and criticism Literary analysis for English Literature for the IB Diploma Carolyn P.
