**The Inner Journey Home** A. H. Almaas, 2004-04-27 What is the soul and how do we come to know it What is its journey in life and what stages and obstacles are encountered along the way These questions are explored here in detail according to the Diamond Approach a spiritual path that combines systematic inquiry into personal experience the practice of traditional spiritual methods and the application of modern psychological research The Inner Journey Home is the centerpiece of the Diamond Approach literature providing a complete overview of the teaching with references to the author's other books for more details on certain topics

The Inner Journey Home A. H. Almaas, 2004-04-27 The Inner Journey Home offers a transformative exploration of the human soul blending insights from traditional spirituality and modern psychology through the Diamond Approach of A H Almaas This centerpiece of Diamond Approach literature delves into the multifaceted nature of the soul tracing its journey from ancient philosophical roots to contemporary understandings and challenges the fragmented perception of human identity prevalent in modern society Almaas presents the soul as a dynamic living organism of consciousness inviting readers to reevaluate their connection to the world and their own being Almaas guides readers through inner exploration and self inquiry to realize the soul's true nature by answering questions such as What is the soul and how do we come to know it What is its journey in life and what stages and obstacles are encountered along the way Through a journey of ascent and descent the book emphasizes the integration of spiritual essence into everyday life leading to a transformative understanding of nonduality and the inherent unity of reality Almaas provides a harmonious blend of spiritual and psychological insights fostering holistic development and offering a vision of psychological and spiritual liberation For those seeking a deeper understanding of their inner lives and the interconnectedness of all existence The Inner Journey Home is an essential read Almaas's work stands as both a guide and an invitation to embark on one's own exploration of the soul illuminating the path toward true self realization and freedom This book promises to enrich the reader's journey with profound insights and practical wisdom making it a significant contribution to spiritual and psychological literature

**Light Upon Light** Andrew Vidich, 2008-07-08 Light Upon Light is a book to touch the heart and awaken the spirit It takes the lives of some of the great spiritual masters of the last millennium from Rumi to twentieth century saint Darshan Singh and illuminates their inner quests More than simply biography Light Upon Light delves into their perceptions of the world the innermost workings of their minds and the life incidents that led them to enlightenment In this sense Light Upon Light is not about the spiritual path it is designed to take the reader and carry them into the spiritual path and perceive the wisdom of the masters from within While author Andrew Vidich PhD has exemplary academic credentials he writes from the heart and calls the reader to a direct experience a felt sense of the core of these masters' teachings He also emphasizes meditation as the universal constant taught by all masters and has provocative exercises in each chapter to stimulate self reflection contemplation and to give the reader experience of practical meditation techniques This is a book to be treasured by both

long time spiritual students and those new to the great masters of the path      *Brilliancy* A. H. Almaas,2006-05-09  
Intelligence is one of the defining characteristics of human beings an inherent ability to respond to the world with awareness knowledge learning and insight Most considerations of human intelligence are based on the notion that intelligence is a product of brain functioning A H Almaas introduces here a radically different viewpoint one that recognizes an actual quality of consciousness as the source of intelligence He calls this source the Brilliancy of our true nature The presentation of his understanding of intelligence is followed by in depth dialogues with his students on the various barriers to recognizing and embodying this essential quality In particular an unresolved relationship with one s father is found to shape the experience of Brilliancy Using a Socratic method that draws upon techniques of body centered Gestalt psychodynamic and cognitive psychologies Almaas helps participants work through their defenses and conflicts surrounding this issue and then diverging from psychotherapeutic practice guides them in discovering their own Brilliancy      *The Holy Intimacy of Strangers* Sarah York,2002-11-08 In *The Holy Intimacy of Strangers* Sarah York explores our common yearning for deeper and more meaningful connection with one another The book presents the paradox we often observe how our seemingly casual interactions with strangers can unlock the door to our hearts and help us discover how we need and yet often resist true intimacy in our relationships This provocative book gives us a new way to look at the qualities of our exchanges with strangers Once we begin this journey we can trace the outlines of our lives together in community our expressions of caring and hospitality the costs of prejudice and judgment our fears and defensiveness the tension between being inclusive or exclusive our expectations and assumptions about one another      *Without a Mask* Avikal Costantino,2011-11-25 Who is behind the mask that we have learnt to wear in order to survive and function in the world Who are we really behind familial and social conditioning If we are free from fear and the preoccupations that in the name of survival justify adaptation Is it possible to be spontaneous and authentic or is it just an infantile desire to leave behind us along with our dreams This book tackles these themes and offers understanding and techniques for recognising our authentic Self helping us to realise that behind the personality mask there is a mysterious universe an ocean of potentiality and that that is our true nature Then the phrase know yourself will no longer just be an indication of philosophers and mystics but will offer us the concrete possibility to ask the right questions those that enable us to lift the veil that hides our true face and find peace and fulfilment

Blair,2020-08-20 Western Yoga has been taught for about 3 000 years It is the source of western civilisation and democracy Western Yoga is very different to the yoga of India that is taught in yoga schools today around the world Pythagoras Socrates Plato and Aristotle learned Western Yoga and then taught it in their Mystery Schools     **Living Magically** Gill Edwards,2012-03-29 Living Magically is a book that has changed countless lives In this lively and inspiring guide to the tools and techniques of metaphysics Gill Edwards outlines a spiritually based psychology for the times that we live in Taking a practical self help approach Living Magically will help you to Rediscover your inner wisdom Break through your fears blockages and limitations Let go of the past and reach for the future Grow through love and joy rather than pain and struggle Heal your inner child Listen to the whispers from your Higher Self Make your dreams come true     **The Alchemy of Freedom** A. H. Almaas,2017-03-28 Well known spiritual teacher A H Almaas uses the metaphor of the mysterious philosopher s stone to discuss a tremendous liberating power that leads to endless enlightenment For millennia alchemists sought the philosopher s stone the miracle substance believed to be the key to all the secrets of existence The quest was fueled by some of the prime questions of human existence What am I Why am I here How has this world come to be A H Almaas shows that the tremendous liberating power of the mysterious philosopher s stone is closer to us than we realize In

fact it is the true nature of all reality in all times and all places without being limited to being anything in particular Through the philosophers stone real transformation can happen our consciousness can become free and we can open to all the possibilities of reality Almaas discusses the factors that are involved in igniting the catalytic property of the philosophers stone and then begins to unpack the properties of true nature when it is free of constraints Finally we are left with the revelation that true nature is endlessly knowable and yet nothing we can know or say about it exhausts its mystery and power The result is a new understanding of what liberation and practice are and a view of what it s like when seeking ceases and life becomes a process of continual discovery We begin to appreciate that the freedom of reality expressed in the complete and fulfilled life all human beings seek and few find is actually the simplicity of the ordinary *The Great Field* John James,2007-11-15 Science has proven that vast domains of energy exist within the material world of our senses In this book therapeutic experience is combined with scientific evidence to create a general theory of how this Great Field is the foundation of everything in the universe including the personal energy we call soul **Maximizing the Triple Bottom Line Through Spiritual Leadership** Louis W. Fry,Melissa Sadler Nisiewicz,2013-01-09 Maximizing the Triple Bottom Line through Spiritual Leadership draws on the emerging fields of workplace spirituality and spiritual leadership to teach leaders and their constituencies how to develop business models that address issues of ethical leadership employee well being sustainability and social responsibility without sacrificing profitability growth and other metrics of performance excellence While this text identifies and discusses the characteristics necessary to be a leader its major focus is on leadership engaging stakeholders and enabling groups of people to work together in the most meaningful ways The authors offer real world examples of for profit and non profit organizations that have spiritual leaders and which have implemented organizational spiritual leadership These cases are based on over ten years of research supported by the International Institute of Spiritual Leadership that demonstrates the value of the Spiritual Leadership Balanced Scorecard Business Model presented in the book *Pracademic* in its orientation the book presents a general process and tools for implementing the model *Runaway Realization* A. H. Almaas,2014-10-21 Spiritual teacher A H Almaas presents the highest level and most profound teachings of the Diamond Approach on the true nature of reality and the path to enlightenment The teaching in this book is off the map because reality itself cannot be captured in a map In fact reality is far more alive far more mysterious than anything we can conceive of It is always revealing itself by knowing itself and knowing reality and living it becomes the fulfillment of our life Here A H Almaas the originator of the Diamond Approach presents a new paradigm for understanding reality the view of totality He reveals that our life can become an endless revelation of reality an adventure with neither beginning nor end A H Almaas has been developing and teaching the Diamond Approach a spiritual path of self realization and maturity based on an original synthesis of modern discoveries in the field of psychology and a new paradigm about spiritual nature for more than thirty years The Diamond Approach aims to realize the truth at progressively deeper levels until one reaches the ultimate

Truth the Absolute and to become integrated into that truth so that we are a living presence and embodiment of it The teachings of this path have been unfolding over time and Runaway Realization presents for the first time in print the highest level of teachings in the Diamond Approach in the most profound work by Almaas so far Almaas offers a detailed look at the true nature of reality and the nature of enlightenment He also talks about practice what it is and what it isn't and how it relates to the process of realization He looks at what it is to be a human being and what our role is in the totality of the universe The material includes a discussion of the nature of space and time as well as a view of more and more subtle levels of realization

**Keys to the Enneagram** A. H.
