Designing Virtual Worlds Richard A. Bartle, 2025-08-08 Designing Virtual Worlds authored by a true pioneer stands as the most comprehensive examination of virtual world design ever written This seminal work is a tour de force remarkable for its intellectual breadth encompassing the literary economic sociological psychological physical technological and ethical foundations of virtual worlds It provides readers with a profound well grounded understanding of essential design principles This first volume of the second edition presents a rich well developed exploration of the foundational concepts underpinning virtual worlds Tracing the evolution of such games from their inception it draws upon examples ranging from the earliest MUDs to today s expansive MMORPGs It elucidates fundamental design precepts often forgotten in the development of new games No other book on online games or virtual worlds matches the level of detail historical context and conceptual depth found in Designing Virtual Worlds

The Gameful World Steffen P. Walz, Sebastian Deterding, 2015-01-16 What if every part of our everyday life was turned into a game The implications of gamification What if our whole life were turned into a game What sounds like the premise of a science fiction novel is today becoming reality as gamification As more and more organizations practices products and services are infused with elements from games and play to make them more engaging we are witnessing a veritable ludification of culture Yet while some celebrate gamification as a possible answer to mankind s toughest challenges and others condemn it as a marketing ruse the question remains what are the ramifications of this gameful world Can game design energize society and individuals or will algorithmic incentive systems become our new robot overlords In this book more than fifty luminaries from academia and industry examine the key challenges of gamification and the ludification of culture including Ian Bogost John M Carroll Bernie DeKoven Bill Gaver Jane McGonigal Frank Lantz Jesse Schell Kevin Slavin McKenzie Wark and Eric Zimmerman They outline major disciplinary approaches including rhetorics economics psychology and aesthetics tackle issues like exploitation or privacy and survey main application domains such as health education design sustainability or social media

Magic, Monsters, and Make-Believe Heroes Douglas E. Cowan, 2019-02-26 Magic Monsters and Make Believe Heroes looks at fantasy film television and participative culture as evidence of our ongoing need for a mythic vision for stories larger than ourselves into which we write ourselves and through which we can become the heroes of our own story Why do we tell and retell the same stories over and over when we know they can t possibly be true Contrary to popular belief it s not because pop culture has run out of good ideas Rather it is precisely because these stories are so fantastic some resonating so deeply that we elevate

them to the status of religion Illuminating everything from Buffy the Vampire Slayer to Dungeons and Dragons and from Drunken Master to Mad Max Douglas E Cowan offers a modern manifesto for why and how mythology remains a vital force today

Digital Media Megan A. Winget, William Aspray, 2011-09-22 There has been an explosion in the creation and use of digital media over the past quarter century and in particular over the past decade As the varieties of digital media multiply scholars are beginning to examine its origins organization and preservation which present new challenges compared to the organization and preservation of traditional media such as books papers films photographs music scores and works of art In order to examine from multiple perspectives issues related to history preservation and ontology of digital media editors of this volume organized an invitation only workshop on digital media The participants were carefully chosen to represent a variety of backgrounds and perspectives ranging from humanities to information studies to technology to history to communication theory to fine arts The book is organized in four parts each representing a different perspective on digital media preservation interaction organization and history The preservation section considers the problems of archiving digital media for long term preservation Many digital objects are readily copied but are fragile and not designed for preservation and this nature of digital objects provides both challenges and opportunities for adapting archival practice The remaining sections look at the interaction between technological changes and cultural practices the organization of digital media and the history of digital media and how technology has changed over time The wealth of varied perspectives collected together in this volume provides new light on the topic of digital media

The Oxford Handbook of Internet Studies William H. Dutton, 2013-01-10 Internet Studies has been one of the most dynamic and rapidly expanding interdisciplinary fields to emerge over the last decade The Oxford Handbook of Internet Studies has been designed to provide a valuable resource for academics and students in this area bringing together leading scholarly perspectives on how the Internet has been studied and how the research agenda should be pursued in the future The Handbook aims to focus on Internet Studies as an emerging field each chapter seeking to provide a synthesis and critical assessment of the research in a particular area Topics covered include social perspectives on the technology of the Internet its role in everyday life and work implications for communication power and influence and the governance and regulation of the Internet The Handbook is a landmark in this new interdisciplinary field not only helping to strengthen research on the key questions but also shape research policy and practice across many disciplines that are finding the Internet and its political economic cultural and other societal implications increasingly central to their own key areas of inquiry
