

The background of the entire cover is an impressionist painting of a rainy street scene. In the foreground, a woman in a dark dress and white apron holds a large red umbrella. To her right, another figure is partially visible. In the background, other figures with umbrellas are walking on the wet pavement. The scene is filled with dappled light and rain, creating a moody atmosphere. The painting style is characteristic of the Impressionist movement, with visible brushstrokes and a focus on light and color.

Washington Square Henry James,2016-01-13 I During a portion of the first half of the present century and more particularly during the latter part of it there flourished and practised in the city of New York a physician who enjoyed perhaps an exceptional share of the consideration which in the United States has always been bestowed upon distinguished members of the medical profession This profession in America has constantly been held in honour and more successfully than elsewhere has put forward a claim to the epithet of liberal In a country in which to play a

social part you must either earn your income or make believe that you earn it the healing art has appeared in a high degree to combine two recognised sources of credit It belongs to the realm of the practical which in the United States is a great recommendation and it is touched by the light of science a merit appreciated in a community in which the love of knowledge has not always been accompanied by leisure and opportunity It was an element in Dr Sloper s reputation that his learning and his skill were very evenly balanced he was what you might call a scholarly doctor and yet there was nothing abstract in his remedies he always ordered you to take something Though he was felt to be extremely thorough he was not uncomfortably theoretic and if he sometimes explained matters rather more minutely than might seem of use to the patient he never went so far like some practitioners one has heard of as to trust to the explanation alone but always left behind him an inscrutable prescription There were some doctors that left the prescription without offering any explanation at all and he did not belong to that class either which was after all the most vulgar **Washington Square** Henry James,1889

He is regarded as one of the key figures of 19th-century literary realism. He was the son of Henry James Sr. and the brother of philosopher and psychologist William James and diarist Alice James. He is best known for a number of novels showing Americans encountering Europe and Europeans. His method of writing from a character's point of view allowed him to explore issues related to consciousness and perception, and his style in later works has been compared to impressionist painting. His imaginative use of point of view, interior monologue, and unreliable narrators brought a new depth to narrative fiction.

Henry James, 2018-12-02 *Washington Square* is a short novel by Henry James. Originally published in 1880 as a serial in *Cornhill Magazine* and *Harper's New Monthly Magazine*, it is a structurally simple tragicomedy that recounts the conflict between a dull but sweet daughter and her brilliant, unemotional father. The plot of the novel is based upon a true story told to James by his close friend, British actress Fanny Kemble. The book is often compared with Jane Austen's work for the clarity and grace of its prose and its intense focus on family relationships. James was not a great fan of *Washington Square*. He tried to read it over for inclusion in the New York Edition of his fiction (1907-1909) but found that he could not, so the novel was not included. Readers, though, have sufficiently enjoyed the book to make it one of the more popular of James's works.

Major themes: The bitterest irony in the story is that Dr. Sloper, a brilliant and successful physician, is exactly right about Morris Townsend, and yet he is cruel to his defenceless and loving daughter. If the doctor had been incorrect in his appraisal of the worthless Townsend, he would be only a stock villain. As it is, the doctor's head functions perfectly, but his heart has grown cold after the death of his beautiful and gifted wife. Catherine gradually grows throughout the story, ultimately gaining the ability to judge her situation accurately. As James puts it: "From her point of view, the great facts of her career were that Morris Townsend had trifled with her affection and that her father had broken its spring. Nothing could ever alter these facts; they were always there, like her name, her age, her plain face. Nothing could ever undo the wrong or cure the pain that Morris had inflicted on her, and nothing could ever make her feel towards her father as she felt in her younger years. Catherine will never be brilliant, but she learns to be clear-sighted."

Henry James (15 April 1843 – 28 February 1916) was an American-born British author regarded as a key transitional figure between literary realism and literary modernism and is considered by many to be among the greatest novelists in the English language. He was the son of Henry James Sr. and the brother of renowned philosopher and psychologist William James and diarist Alice James. He is best known for a number of novels dealing with the social and marital interplay between emigre Americans, English people, and continental Europeans. Examples of such novels include *The Portrait of a Lady*, *The Ambassadors*, and *The Wings of the Dove*. His later works were increasingly experimental. In describing the internal states of mind and social dynamics of his characters, James often made use of a style in which

ambiguous or contradictory motives and impressions were overlaid or juxtaposed in the discussion of a character's psyche. For their unique ambiguity as well as for other aspects of their composition, his late works have been compared to impressionist painting. James also published articles and books of criticism, travel biography, autobiography, and plays. Born in the United States, James largely relocated to Europe as a young man and eventually settled in England, becoming a British subject in 1915, one year before his death. James was nominated for the Nobel Prize in Literature in 1911, 1912, and 1916.
