Schooling Ever Change? Piotr Mikiiewicz, Marta Jurczak-Morris, 2023-03-28 This book is an insightful meta narrative about schooling which explores the global natural experiment of the COVID 19 pandemic and its potential impact on school culture The proposed book discusses how the abrupt and somewhat forced digital transformation of schooling on a global scale caused by the COVID 19 pandemic did not change the educational status quo It states that online teaching and learning failed to transform the role of the key school actors students and teachers as well as the relationship between them despite megatrends such as digitalisation automation and the development of artificial intelligence This focus text discusses why the global experience of distance education did not translate into a significant qualitative change and provides a theoretical framework which enables the reader to interpret and explain the processes that occurred during distance education as well as understand why extraordinarily little if nothing has changed in school culture It will appeal to scholars and students from the sociology of education and from education studies particularly those interested in school culture innovation in education online teaching and learning curriculum studies and education policy The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **PACK OF LIES** Sharon Zoller, 2024-04-24 Has your faith in God been damaged by what you've been taught in science In *Pack of Lies* author Sharon Zoller presents information to breathe new life into your faith demonstrating that school textbooks don't reflect the current scientific information She discusses the spiritual and cultural consequences of being taught the world is a product of atheistic evolution and she reveals eleven topics from public school science texts that try to support that atheistic evolutionary view These topics include peer reviewed articles rock sedimentary rock coal whales dinosaurs similar DNA developmental similarities structural similarities evolution and natural selection and fossils and transitional forms Each quote from the textbook is followed by a section rich in gold nugget quotes from today's top scientists like Stephen Meyer Michael Behe and James Tour
