

Water Cycle

The collage features several worksheets and a diagram. The worksheets include:

- The Water Cycle Adventure**: A worksheet with a title, a small illustration of a water cycle, and multiple-choice questions about the water cycle.
- The Changing States of Water**: A worksheet with a title, a small illustration of water changing states, and multiple-choice questions about the changing states of water.

A circular diagram on the right illustrates the water cycle with a sun, clouds, rain, and water. The diagram shows the sun heating the water, which evaporates into the air, forms clouds, and then rains down into the water. The water then evaporates again, forming clouds, and the cycle repeats.
