Wayne Thiebaud Timothy Anglin Burgard, 2025-03-18 Explores Wayne Thiebaud's career as a self-described thief who appropriated and reinterpreted old and new European and American artworks. Although artist Wayne Thiebaud (1920–2021) earned acclaim for his poetic renderings of the prosaic particulars of American life, he openly admitted that it's hard for me to think of artists who weren't influential on me because I'm such a blatant thief. Wayne Thiebaud Art Comes from Art features the artist's virtuosic appropriations and reinterpretations of old and new European and American artworks spanning from Andrea Mantegna to Édouard Manet, Henri Matisse to Richard Diebenkorn, offering crucial insights into his creative process. Thiebaud's exploration of art artists and art history along with the practices of copying, appropriation, and reinterpretation allowed him not only to see through the eyes of other artists but also to commune with them through their work, expanding his own vision. This career-long engagement with the concept of appropriation illustrates his perception of art history as an encyclopedic bureau of standards, a rich repository and resource that offers working artists community with their predecessors and communion with their artworks. The entire text has been carefully edited for greater clarity, narrative coherence, and scholarly currency. Jacket. **Creating Vibrant Art Lesson Plans** Kristin Baxter, 2019-04-05 Writing lesson plans is often considered busywork, but it can be a useful path for discovering what's important about artmaking and teaching. This book shows teachers how to slow down, breathe, and linger over the process of unit and lesson plan writing to uncover how much this process can support them professionally, creatively, and personally. The user-friendly text offers guidance for selecting an art project for the unit and then zooms into the nitty-gritty of specific lesson plans, including how to identify materials for a project and how to construct classroom dialogue to help students develop ideas for their artwork. The text also considers standards, assessments, and extensions to other subject areas. Featuring accessible language, clear definitions, practical examples, and self-reflection prompts, this unique resource will help pre- and inservice teachers create lesson plans that are useful to their specific contexts and methods of teaching. If you happen to be feeling weary, frustrated, or uninspired, this book sparks imagination, fuels hope, and gives you theories to support what you know needs to be done. From the Foreword by P. Bruce Uhrmacher. Christy

McConnell Moroye and Bradley Conrad educational researchers Baxter invites us to slow down and consider the lesson plan as a creative catalyst to inspire our own artmaking as well as a space to examine why and what we teach Lisa Hochtritt Maryland Institute College of Art An inspiring and playful resource that is much more rewarding than typical lesson planning It will surely spark your imagination with every flip of the page Hailey Adlard art educator Parkland School District PA
