Pond Life Identification Guide

Tim Grant, Gail Littlejohn

Pond Life Identification Guide:

50 Fantastic Ideas for Fearless Play Judit Horvath, 2017-03-09 The 50 Fantastic Ideas series is packed full of fun original skills based activities for Early Years practitioners to use with children aged 0-5. Each activity features step by step guidance, a list of resources and a detailed explanation of the skills children will learn. Creative, simple and highly effective, this series is a must have for every Early Years setting. Fearless play is a key element in developing a child's confidence, extending their limits and helping them learn to assess risks and manage situations. This book is full of fun and colourful ideas for facilitating fearless play in early years settings. The variety of activities means there's something for every child to enjoy, ranging from basket making to mud racing. Each idea is targeted to help children face new challenges and explore the world around them, as well as helping to establish motor skills, coordination and body awareness. A perfect resource for busy early years practitioners who want children in their care to play safely and fearlessly. *Concise Pond Wildlife Guide*

Concise Pond Wildlife Guide Bloomsbury, 2015-05-21 This practical pocket guide published in association with the Wildlife Trusts includes more than 190 species of animal and plant that inhabit still water bodies such as ponds, pools and small lakes in northern Europe. Each species account includes accurate artworks and concise descriptions outlining essential details such as size, habitat, ecology and distribution in Britain and the near Continent. A vast number of species occurs in these habitats so the guide selectively pictures and describes a good range of fauna and flora that are most likely to be found and identified. Among the fascinating animals featured are freshwater sponges, hydras, water bears, worms, leeches, water snails, dragonflies and damselflies, frogs and toads, bats, fish, birds and iconic mammals such as the Water Vole and European Otter. The easy to follow layouts and illustrations aid quick and precise identification, making the book an indispensable reference in the field as well as in the home and garden.

99 Jumpstarts for Kids' Science Research Peggy Whitley, Susan Williams Goodwin, 2005-12-30 This third entry in the Jumpstarts series focuses on Science topics for upper elementary and middle school students. Maintaining the 99 Jumpstarts format of the two previous books, 99 Jumpstarts for Kids' Science Research is divided into ten broad topical sections. Each topic is arranged in alphabetical order under its section. Topics include Body Parts, Energy, Animals, Heavens, Weather, Matter, Medicine, Technology, Environment and Geology. This pathfinder approach aids students in the research process, helping them define important terms, offer beginning questions to help narrow their topic, furnish source ideas and some fun activities to explore each topic. Grades 4-8.

The Wildlife Pond Book Jules Howard, 2019-09-19 This friendly practical guide includes everything you need to know to pick up a spade, put in a pond and help wildlife flourish right outside your back door. Ponds are vital oases for nature. They are nursery grounds, feeding stops and bathing spots. They are genetic superhighways and vibrant ecosystems, each brimming with life, interactions and potential. And they are for everyone. In *The Wildlife Pond Book*, Jules Howard offers a fresh perspective on ponds and encourages gardeners to reach for a garden spade and do something positive to benefit our shared neighbourhood nature. As well as offering practical tips and advice on

designing planting up and maintaining your pond Jules encourages readers to explore the wildlife that colonises it with a torch a microscope or a good old fashioned pond dipping net With a foreword by award winning wildlife gardening author Kate Bradbury this helpful new guide includes a section outlining the hundreds of organisms that may turn up in your pond and is packed with creative ideas that have been tried and tested by author Jules Howard an avid pond builder prolific pond dipper and passionate voice for freshwater conservation for more than fifteen years So no matter how big your outdoor space is The Wildlife Pond Book is the guide you need to create your very own haven for nature **Techniques of**

Water-resources Investigations of the United States Geological Survey,1987 Methods for Collection and Analysis of Aquatic Biological and Microbiological Samples Phillip E. Greeson,1977 *Coastal Awareness : a Resource Guide for Teachers in Elementary Science* Frederick A. Rasmussen,1978 *Coastal Awareness* Frederick A. Rasmussen,1978

Creek Watchers: Exploring the Worlds of Creeks and Streams Jill Shinkle,1995 Part of the Aquatic Science Learning Activities curriculum Creek Watchers explores the impact that land use near a creek has on the health of plants and animals through learning about street runoff pollutants erosion water quality water flow and debris Participants will also learn how to identify trees found near creeks and how creek organisms adapt to survive in a changing environment *Coastal Awareness : a Resource Guide for Teachers in Senior High Science* National Ocean Survey. Office of Coastal Zone Management,1978

The Outdoor Classroom in Practice, Ages 3-7 Karen Constable,2014-11-27 The outdoor environment is now an integral part of many early years settings and schools but is it being used to its full potential Providing extensive challenging and ever changing outdoor play experiences is an essential and valuable aspect of early years education This book offers comprehensive guidance on how the outdoor environment can be used to teach and challenge all children across a range of settings drawing on forest school practice Following a month by month format each chapter provides a selection of theme related play experiences alongside planning and evaluations of how the ideas described were carried out and reveals the impact that they had on the children Including detailed information on the role of the adult the environment planning and using children s interests to guide their learning and development the book features over 100 full colour photographs to illustrate practice diary entries that reflect how the planning was delivered what changes were made and how aspects of learning were recorded and assessed examples of practice as well as comprehensive resource lists and safety guidelines links to indoor play and opportunities at home Written by a leading authority on forest school practice and full of practical ideas that can be adapted to suit individual children s needs this book aims to inspire practitioners to make the most of the outdoor environment throughout the year *Science Centres and Science Events* Anne-Marie Bruyas,Michaela Riccio,2012-10-30 The idea for this text stemmed from the fruitful experience gathered during the training course of 9 Nigerian university students organized in Naples from 3 to 18 September 2008 by the team of Fondazione IDIS Citt della Scienza under the project Science Centre Owerri The training course turned out to be not only an educational opportunity to acquire knowledge

and skills for these students but also a real and practical tool that later led to the realization of the first Science Festival of Owerri in Nigeria in May 2009 This in turn sparked the idea of creating a highly practical handbook for those who want to face the challenge of developing new projects for the dissemination and socialization of science in developing countries In these countries the role of scientific education and training in schools is not sufficient to arouse scientific curiosity among young people and make the population aware of the importance of scientific knowledge in everyday life Moreover science and technology are indispensable tools for people s empowerment and should be supported with actions that encourage curiosity about science and the intelligent use of technology to bridge the divide with developed countries It is therefore necessary to set up activities that are carefully targeted to promote and communicate science The text has been designed as a practical guide to be used in a variety of contexts scientific events or more structured science festivals training the creation of scientific cultural associations and the development of new science centres Besides being an excellent tool for training and supporting the design and planning phases the manual can also be used as a reference work for institutions and local cultural services which have to select projects of this type Teaching Green -- The Elementary Years Tim Grant,Gail

Littlejohn,2005-05-01 A complete resource for teaching green to young people from kindergarten through grade five

Practical Advanced Biology Tim King,Michael Reiss,Michael Roberts,2001 An accessible resource that can be used alongside the Advanced Biology text or any other core Advanced Biology text as it covers the practical element for AS and A Level Biology **Collier's Encyclopedia** ,1986 **Resources in Education** ,1986 **Think Green, Take Action** Daniel A. Kriesberg,2010-08-16 This book provides an annotated bibliography of age appropriate literature and activities showing children the importance of environmental issues and teaching them the skills to take action In past years teaching children about conservation and environmental issues might have been an optional side topic to complement an earth science curriculum but in today s educational climate being green is a subject with great relevance and importance This book combines a wide variety of techniques to help students understand environmental issues and gain the skills needed to take action The children s literature and classroom activities suggested in Think Green Take Action Books and Activities for Kids are appropriate for elementary school students from grades three through seven covering three major environmental issues endangered species resource depletion and pollution After students have a grasp of the causes of these environmental problems the final chapter presents ways to take easy action that can create ripples of change across the world Educators in museums and nature centers home schooled children and their parents comprise an appropriate secondary audience for this instructive text **Teaching Green - The High School Years** Tim Grant,Gail Littlejohn,2013-09-23 This resource is ideal for anyone working with young people in grades 9 12 whether in schools or in non formal educational settings Richly illustrated it offers fifty teaching strategies that promote learning about natural systems and foster critical thinking about environmental issues both local and global It contains new approaches to learning strategies for living sustainably and

numerous activities that promote interdisciplinary learning In addition the book provides suggestions for how best to green individual subject areas develop integrated learning programs or replicate exemplary programs created by innovative schools and communities Containing contributions from over sixty educators from across North America the book s strength lies in its diverse content Readers learn how best to apply systems thinking teach about controversial issues and use a step by step approach to creative problem solving in environmental projects Also provided are instructions for measuring the ecological footprint of a high school creating an indoor living system that cleans water monitoring air quality with lichens and using green technologies to help green school campuses Many articles and activities engage teenagers in outdoor learning and community restoration projects Suggestions are included for connecting students with special needs to the environment around them Readers will find accessible background information and suggestions for many practical projects and activities It is sure to appeal to a wide range of teachers educators and parents seeking innovative ideas for incorporating green themes into their programs Tim Grant and Gail Littlejohn are the editors of Green Teacher magazine North America s award winning environmental teaching resource

Homemade Kids Nicola Baird,2010-07-01 Modern living offers convenience and as parents we need all the help we can get Food is produced in abundance and clothes are cheap enough for us to use and then discard But is it necessary to be so wasteful And is this really how we want to raise our children *Homemade Kids* is full of top tips inspirational ideas and practical advice that will help you to make your home a more healthy energy efficient environment create toys and fun activities for your baby decide whether reusable nappies are the right choice for you consider the best feeding and transport solutions for your family Raising a healthy happy child doesn t need to be a complicated process that puts a strain on the planet and your wallet *Homemade Kids* takes you back to basics and reminds you of the simple pleasures of parenting

RSPB Handbook of Garden Wildlife Peter Holden,Geoffrey Abbott,2023-02-16 A comprehensive single source of information on the plants and animals that live alongside us This updated edition features new material on climate change recycling and wild spaces in gardens This friendly handbook is full of practical advice on attracting wildlife to your garden and encouraging creatures to stick around A helpful introductory section includes expert tips on green gardening seasonal planting how to deal with garden predators and how to get children involved in gardening A DIY chapter with a step by step guide on creating projects for your garden from building nest bat and hedgehog boxes to making your own pond is also included From foxes to finches and from lizards to ladybirds colour photographs illustrate almost 400 garden species including mammals birds insects invertebrates reptiles and amphibians flowers trees shrubs and fungi while the comprehensive text explains everything you need to cultivate a haven for nature
