Collapse and Transformation Guy D. Middleton, 2020-04-09 The years c 1250 to 1150 BC in Greece and the Aegean are often characterised as a time of crisis and collapse A critical period in the long history of the region and its people and culture they witnessed the end of the Mycenaean kingdoms with their palaces and Linear B records and through the Postpalatial period the transition into the Early Iron Age But on closer examination it has become increasingly clear that the period as a whole across the region defies simple characterisation there was success and splendour resilience and continuity and novelty and innovation actively driven by the people of these lands through this transformative century The story of the Aegean at this time has frequently been incorporated into narratives focused on the wider eastern Mediterranean and most infamously the Sea Peoples of the Egyptian texts In twenty five chapters written by 25 specialists *Collapse and Transformation* instead offers a tight focus on the Aegean itself providing an up to date picture of the archaeology before and after the collapse of c 1200 BC It will be essential reading for students and scholars of the Aegean and eastern Mediterranean regions as well as providing data and a range of interpretations to those studying collapse and resilience more widely and engaging in comparative studies Introductory chapters discuss notions of collapse and provide overviews of the Minoan and Mycenaean collapses These are followed by twelve chapters which review the evidence from the major regions of the Aegean including the Argolid Messenia and Boeotia Crete and the Aegean islands Six chapters then address key themes the economy funerary practices the Mycenaean pottery of the mainland and the wider Aegean and eastern Mediterranean region religion and the extent to which later Greek myth can be drawn

Bioarchaeologists Speak Out Jane E. Buikstra, 2018-10-26 Bioarchaeologists who study human remains in ancient historic and contemporary settings are securely anchored within anthropology as anthropologists yet they have not taken on the pundits the way other subdisciplines within anthropology have Popular science authors frequently and selectively use bioarchaeological data on demography disease violence migration and diet to buttress their poorly formed arguments about general trends in human behavior and health beginning with our earliest ancestors While bioarchaeologists are experts on these subjects bioarchaeology and bioarchaeological approaches have largely remained invisible to the public eye Current issues such as climate change droughts warfare violence famine and the effects of disease are media mainstays and are subjects familiar to bioarchaeologists many of whom have empirical data and informed viewpoints both for topical exploration and also for predictions based on human behavior in deep time The contributions in this volume will explore the how and where the data has been misused present new ways of using evidence in the service of making new discoveries and demonstrate ways that our long term interdisciplinarity lends itself to transdisciplinary wisdom We also consider possible reasons for bioarchaeological invisibility and offer advice concerning the absolute necessity of bioarchaeologists speaking out through social media **Ancient History Refined** Jeff Walling, 2020-11-22 *Ancient History Refined* combines the study of creation secular science and the Bible to present a groundbreaking theory that reconciles ancient historical records with events in the Holy Book Jeff Walling presents the Barnes Humphreys theory related to C 14 dating which has proved to be accurate in calculating the measured values for the existence strength and the decay rate of the magnetosphere Up until now creationists and Bible scholars have neglected to consider this science when dating historical events and they've failed to

make the necessary alignment synchronizations of time periods from Biblical chronologies with secular chronologies Walling avoids that mistake applying his B H theory to the Egyptological chronologies based on the C 14 dates given to artifacts of associated time periods see appendix B While researching he observed strict adherence to the scientific method Whether you re a historian Bible scholar archeologist pastor or student you ll enjoy finding out how creation science solves mysteries of the past Public Archaeologies of Frontiers and Borderlands Kieran Gleave,Howard Williams,Pauline Magdalene Clarke,2020-11-26 Select proceedings of the 4th University of Chester Archaeology Student conference Chester 20 March 2019 investigate real world ancient and modern frontier works the significance of graffiti material culture monuments and wall building as well as fictional representations of borders and walls in the arts as public archaeology The Latinx Guide to Liberation Vanessa Pezo,2025-02-21 Let us heal together But first I invite you to take a breath The impact of colonialism generational trauma and individual trauma is often disregarded in the Latinx community This pioneering guide addresses this trauma and takes Latinx readers on a journey of healing and liberation It explores what it means to have been systematically oppressed how it impacts us and how to change it In doing so this book challenges stereotypes unravels the shame based narratives around Latinx mental health and refocuses the conversation around cultural empowerment awareness and transformation Each chapter is enriched with historically informed psychoeducation regarding the impact of various types of trauma on Latinx mental health It also includes reflection questions and healing exercises to help readers process how they their families and communities have been impacted Accessible and interactive this is an invaluable resource for Latinx people and mental health professionals working within the Latinx community *History and Approaches to Heritage Studies* Phyllis Mauch Messenger,Susan J. These "Thin Partitions" Joshua Englehardt, Ivy Rieger, 2017-05-15 These Thin Partitions explores the intellectual and methodological differences that separate two of the four subdisciplines within the field of anthropology archaeology and cultural anthropology Contributors examine the theoretical underpinnings of this separation and explore what can be gained by joining them both in university departments and in field research In case studies highlighting the benefits of interdisciplinary collaboration contributors argue that anthropologists and archaeologists are simply not speaking the same language and that the division between fields undermines the field of anthropology as a whole Scholars must bridge this gap and find ways to engage in interdisciplinary collaboration to promote the health of the anthropological discipline By sharing data methods and ideas archaeology and cultural anthropology can not only engage in more productive debates but also make research accessible to those outside academia These Thin Partitions gets to the heart of a well known problem in the field of anthropology and
