deaths out of a population of five million Then support for the government s crisis management was at its height Labour the leading party in the incumbent coalition government secured a historic election victory Prime Minister Jacinda Ardern had taken up the metaphor of the New Zealand people as a team of five million facing the Covid 19 threat together This book seeks to explain the success of the government s strategy through an analysis of the election campaign and outcome The authors also address the limits of this approach and the extent to which some voters felt alienated rather than connected with the team The election outcome was a big short term swing of the electoral pendulum It did not generate a reset of the party system Three years on as the 2023 election loomed into sight the party system looked much as it did prior to the pandemic and Labour s success in 2020 was about to be dramatically reversed
