Commonwealth Universities Yearbook ,1988 **AVENUE21. Connected and Automated Driving: Prospects for Urban Europe** Mathias Mitteregger, Emilia M. Bruck, Aggelos Soteropoulos, Andrea Stickler, Martin Berger, Jens S. Dangschat, Rudolf Scheuven, Ian Banerjee, 2021-10-07 This open access publication examines the impact of connected and automated vehicles on the European city and the conditions that can enable this technology to make a positive contribution to urban development The authors argue for two theses that have thus far received little attention in scientific discourse as connected and automated vehicles will not be ready for use in all parts of the city for a long time previously assumed effects from traffic safety to traffic performance as well as spatial effects will need to be re evaluated To ensure this technology has a positive impact on the mobility of the future transport and settlement policy regulations must be adapted and further developed Established territorial institutional and organizational boundaries must be investigated and challenged quickly Despite or indeed because of the many uncertainties we find ourselves at the beginning of a new design phase not only in terms of technology development but also regarding politics urban planning administration and civil society **AVENUE21.** Mathias Mitteregger , Emilia M. Bruck, Aggelos Soteropoulos, Andrea Stickler, Martin Berger, Jens Dangschat, Rudolf Scheuven, Ian Banerjee, 2020-12-28 The following publication shows the results of a Daimler and Benz Foundation grant supported research project at the TU Wien It is the shared achievement of the Faculty of Architecture and Planning and comprises more than two and a half years of interdisciplinary teamwork The subject of the study are the effects of automated and connected vehicles on the European city and the pre conditions under which this technology can make a positive impact on urban development The research team advocate for two theses which have received little notice in scientific discussions Automated and connected vehicles will not gain acceptance in all subspaces of the city for a long time As a result the assumed impact from transport safety to efficiency as well as spatial effects must be newly appraised To ensure that this technology makes a positive contribution to the mobility of the future transportation regulations and settlement policies must continue to develop as well Established territorial institutional and organisational borders should be questioned and soon Despite or perhaps because of current insecurity we find ourselves at the start of a phase of creation and experimentation for the development of new technology but also for politics urban planning administrations and the civilian community
