Saflo,2021-10-11 No detailed description available for Al Juwayni s Thought and Methodology **The Newman-Scotus Reader** Edward J. Ondrako,2015-05-13 Drawing from the inaugural Newman Scotus Symposium this edited volume presents principles that converge with striking similarities in the thought patterns of Bl John Duns Scotus and Bl John Henry Newman With contributions from prominent philosophers and theologians this book argues in detail that Newman was overall sympathetic to many of the major themes characteristic of Scotus metaphysics and furthermore would be cautious about simply substituting historical dimensions and new hermeneutics for a sound metaphysical approach The more metaphysical approach of Scotus uncovers the implicit notional foundations of Newman s thought while the more phenomenological style of Newman assists the reader in grasping the realism and profound spirituality lying behind the more abstract presentation of Scotus Topics range from the Franciscan Scotistic motive of the Incarnation the Scotistic position of sacramental theology to intuition and certitude scientific form and real assent uncoupling Scotus from Kant the will as the power to self determine as the essential characteristic of the will with love as its object and its relationship to the intellect as moved by its object the truth and more Features of this edited work include A unique text that offers connections and contexts between Newman and Scotus including a genuine unity of approach and substantially identical convictions concerning the nature of theology and how to conduct it Contributions from prominent philosophers and theologians such as John T Ford Timothy P Noone Cyril O Regan Peter D Fehlner Olivier Boulnois Edward J Ondrako Bishop Geoffrey Rowell Mary Beth Ingham Patricia Hutchison and Robert C Christie and includes the first hand account from Deacon Jack Sullivan of the miracle that led to Newman s beatification End of chapter study questions This book is intended for upper level undergraduate and graduate students professors and interested persons intuiting modern sensitivity to freedom in its relationship to the will and intellect Scotus and Newman provide an indispensable basis for grasping the profound insights of the Church in the Modern World Gaudium et Spes **The Ground Beneath the Cross** Kevin F. Burke,2000-02-04 This book is the first comprehensive analysis of the thought of Ignacio Ellacur a the Jesuit philosopher theologian martyred for his work on behalf of Latin America s oppressed peoples While serving as president of the Jesuit run University of Central America in the midst of El Salvador s brutal civil war Ellacur a was also a prolific writer His advocacy on behalf of the country s persecuted majority provoked the enmity of the Salvadoran political establishment On November 16 1989 members of the Salvadoran military entered the university s campus and murdered Ellacur a along with five other Jesuit priests and two women Kevin F Burke SJ shows why Ellacur a is significant not only as a martyr but also as a theologian Ellacur a effectively integrated philosophy history anthropology and sociopolitical analysis into his theological reflections on salvation spirituality and the church to create an original contribution to liberation theology Ellacur a s writings directly address one of the most vexing issues in theology today can

theologians account for the demands arising from both the particularity of their various social historical situations and also the universal claims of Christian revelation Burke explains how Ellacur a bases theology in a philosophy of historical reality the ground beneath the cross and interprets the suffering of the crucified peoples in the light of Jesus crucifixion Ellacur a thus inserts the theological realities of salvation and transcendence squarely within the course of human events and he connects these to the Christian mandate to take the crucified peoples down from their crosses Placing Ellacur a s thought in the context of historical trends within the Roman Catholic Church particularly Vatican II and the rise of liberation theology in Latin America Burke argues that Ellacur a makes a distinctive contribution to contemporary Catholic theology **After**

Method Hanna Reichel,2023-10-17 After Method assumes the impossibility of doing theology right and moves beyond it Organized as a conversation in two voices with systematic theological commitments represented by Karl Barth and constructive theological commitments represented by Marcella Althaus Reid this book calls the redemptive potential of any methodological program into question Indeed the search for a full and complete theological account of reality has only further fragmented theological discourse Thus Hanna Reichel argues that method cannot save us but that does not mean that we cannot do better After Method harnesses the best insights systematic and constructive theologies have to offer in their mutual critique and gestures toward a better theology Utilizing architectural metaphor Reichel pulls from systematic and constructive approaches to develop an understanding of theological work as conceptual design responsibly ordering and structuring given materials for a purpose This necessitates a more realistic adaptation to reality for theology expanding its standards to encompass the experiences and perceptions of people and speaking the truth available to it The honesty humility and solidarity generated through the failure of method liberates theology to a more playful and tentative cruising of different approaches and redirects its attention to misfits and outsiders Equally demanding and self relativizing the resultant ethos is better able to do justice to the reality of the world and the reality of God than doctrinal orthodoxy or methodological orthopraxy **Theology in the Present Age** Christopher Ben Simpson,Steven D. Cone,2013-08-23 This volume of essays centers on the theme of doing Christian theology in the present postmodern context a consistent theme of the teaching of John D Castelein The work will celebrate and honor John s years of service by representing reflections of his teaching in the thought of his students and colleagues The essays range over such topics as theological reflections on the postmodern philosophical themes the relations between Christian theology and culture the contributions of philosophical hermeneutics for Christian theology and the challenges of engaging in ministry in a postmodern context The seventeen contributors to the volume are former students and both present and former colleagues involved in various ministries be they in a college setting or in a local church **Angst and Evolution** Francis X. Pondering the Spade David B. Schreiner, 2019-04-17 The close relationship between the Old Testament and archaeology goes without saying However the methodological nuances involved are often either underappreciated or ignored Using William Dever's idea of convergence this work attempts to flesh out details on how archaeology and Old Testament studies merge It examines some of the most important archaeological finds to date and determines that whether through a broad or narrow convergence the history of research has shown that these two separate disciplines exhibit a tendency to inform one another In the case of Old Testament studies these convergences may even be paradigm shifting In every case the convergences are historically and culturally informative and therefore illuminate the depth of the biblical text
