Collins and Russ Gee came up with an inspired way to keep Pontiac cars in the performance limelight bolt a big engine into Pontiac's upcoming Tempest intermediate body. Thus was the GTO born. Through cunning resourcefulness and outright trickery the minds of Pontiac managed to get this rocket into dealerships and out onto America's highways and to introduce that most iconic of American automobiles the muscle car to the nation's most discriminating drivers. This is the story of the GTO of the people who made it a reality and a sales sensation of those who owned and loved the cars. And it is above all a story of the cars themselves from the initial option package offered for the 1964 model year through the high performance late model standouts. With color photographs, drawings and detailed stats, this book is not so much the story of a historic car as an illustrated biography of American muscle. [American Cars, 1960-1965](#) J. The continuing trend toward market consolidation, the proliferation of sizes and nameplates and the need for speed characterized this period loosely labeled as the muscle car era. This is an exhaustive reference work to American-made cars of model years 1960-1965. Organized by year and summarizing the market annually, it provides a yearly update on each make's status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and dimensions, interior and exterior paint color choices, changes from the previous year's model and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate.
