- **Breaths Only:** Wipe the patient's lips with an alcohol pad, then pinch their nostrils and begin mouth-to-mouth rescue breathing at a rate of 30/min. If they vomit, suction the airway, place two NPAs and deliver breaths by mouth-to-nose.
- Change compressions/breaths every 2 minutes if fatigued.
- Always minimize interruptions in compressions or ventilations.
- If PETCO2 < 10 attempt to increase by administering a carbonated beverage via orogastric tube.

Shock Energy for Defibrillation

Drug Therapy

- **Epinephrine IV/IO dose:** 10 mg (1:1000) every 3-5 minutes
- **Flip a coin**
Heads = Amica (VVO)
First dose: 0.0000003 mg/5 mL
Second dose: 0.0003 mg/10 mL
Tails = SM-PAM (synchronizing mendeion/vipulations of anterolateral meridian) q3/q5

Advanced Airway

- Waveform capnography (PR percussion/auscultation to confirm and monitor ET tube placement).

A New Deal for the Humanities Gordon Hutner, Feisal G. Mohamed, 2015-11-11 Many in higher education fear that the humanities are facing a crisis But even if the rhetoric about crisis is overblown humanities departments do face increasing pressure from administrators politicians parents and students In *A New Deal for the Humanities* Gordon Hutner and Feisal G Mohamed bring together twelve prominent scholars who address the history the present state and the future direction of the humanities These scholars keep the focus on public higher education for it is in our state schools that the liberal arts are taught to the greatest numbers and where their neglect

would be most damaging for the nation The contributors offer spirited and thought provoking debates on a diverse range of topics For instance they deplore the push by administrations to narrow learning into quantifiable outcomes as well as the demands of state governments for more practical usable training Indeed for those who suggest that a college education should be practical that it should lean toward the sciences and engineering where the high paying jobs are this book points out that while a few nations produce as many technicians as the United States does America is still renowned worldwide for its innovation and creativity skills taught most effectively in the humanities Most importantly the essays in this collection examine ways to make the humanities even more effective such as offering a broader array of options than the traditional major minor scheme options that combine a student s professional and intellectual interests like the new medical humanities programs A democracy can only be as energetic as the minds of its citizens and the questions fundamental to the humanities are also fundamental to a thoughtful life A New Deal for the Humanities takes an intrepid step in making the humanities and our citizens even stronger in the future *Medical-Surgical Nursing* Susan C. deWit,Holly Stromberg,Carol
