Archaeology of the Night Nancy Gonlin,April Nowell,2017-12-15 How did ancient peoples experience view and portray the night What was it like to live in the past when total nocturnal darkness was the norm Archaeology of the Night explores the archaeology anthropology mythology iconography and epigraphy of nocturnal practices and questions the dominant models of daily ancient life A diverse team of

experienced scholars uses a variety of methods and resources to reconstruct how ancient peoples navigated the night and what their associated daily and nightly practices were. This collection challenges modern ideas and misconceptions regarding the night and what darkness and night symbolized in the ancient world and it highlights the inherent research bias in favor of daytime archaeology. Numerous case studies from around the world including Oman, Mesoamerica, Scandinavia, Rome, Great Zimbabwe, Indus Valley, Peru, and Cahokia illuminate subversive social ritual, domestic and work activities such as witchcraft, ceremonies, feasting, sleeping, nocturnal agriculture, and much more. Were there artifacts particularly associated with the night? Authors investigate individuals and groups both real and mythological who share a special connection to nighttime life. Reconsidering the archaeological record: Archaeology of the Night views sites, artifacts, features, and cultures from a unique perspective. This book is relevant to anthropologists and archaeologists and also to scholars of human geography, history, astronomy, sensory studies, human biology, folklore, and mythology. Contributors: Susan Alt, Anthony F. Aveni, Jane Eva Baxter, Shadreck Chirikure, Minette Church, Jeremy D. Coltman, Margaret Conkey, Tom Dillehay, Christine C. Politicians at Night: Interaction and Discourse on the Entertainment Political Interview studies the exchanges between presidential candidates and talk show hosts on broadcast late night shows in the United States. Gonen Dori-Hacohen, Eean Grimshaw, and Menno H. Reijven use various language and social interaction frameworks including membership categorization analysis, conversation analysis, narrative analysis, and semiotics. They develop a broad understanding of the Entertainment Political Interview (EPI) and cultural role. They discuss how politicians use pronouns to achieve inclusion and exclusion. Similarly, the authors demonstrate how and why the hosts ask softball questions. Unlike these two elements that create politics, the authors demonstrate how politicians use stories to present themselves like celebrities. They then demonstrate how politicians intersect with entertainment when they analyze one specific segment called Slow Jam the News on The Tonight Show with Jimmy Fallon. The linking of the politician to entertainment is part of the final argument of the book where the authors critically examine the EPI as part of a myth since it vacates the politics of its original form while maintaining a facade of politics. EPI promotes a capitalist neoliberal ideology that is at the root of both entertainment and politics in the U.S. **The Other Side of the Night** Daniel Allen Butler, 2020-01-10. The New York Times bestselling author of *Unsinkable* recounts the disaster from the vantage point of nearby vessels. Publishers Weekly: A few minutes before midnight on April 14, 1912, the unsinkable RMS Titanic, on her maiden voyage to New York, struck an iceberg. Less than three hours later she lay at the bottom of the Atlantic Ocean. While the world has remained fascinated by the tragedy, the drama of those fateful hours was not only played out aboard the doomed liner. It also took place on the decks of two other ships, one fifty-eight miles distant from the sinking Titanic, the other barely ten miles

away The masters of the steamships Carpathia and Californian Capt Arthur Rostron and Capt Stanley Lord were informed within minutes of each other that their vessels had picked up the distress signals of a sinking ship Their actions in the hours and days that followed would become the stuff of legend as one would choose to take his ship into dangerous waters to answer the call for help while the other would decide that the hazard to himself and his command was too great to risk responding After years of research Daniel Allen Butler now tells this incredible story moving from ship to ship on the icy waters of the North Atlantic in real time to recount how hundreds of people could have been rescued but in the end only a few outside of the meager lifeboats were saved He then looks at the US Senate investigation in Washington and ultimately the British Board of Trade inquiry in London where the actions of each captain are probed questioned and judged until the truth of what actually happened aboard the Titanic the Carpathia and the Californian is revealed Powerful very very well done New York Times bestselling author Clive Cussler
