The Ghost of Lunenburg Manor (Novel Study) Gr. 6-8 Sherry R. Bennett, Marie M. Fraser, 1998-01-01 The Ghost of

Lunenburg Manor follows Tom and Liz Austen as they visit a haunted house on the invitation of Professor Zinck. There Tom and Liz experience strange happenings such as a fire burning on the sea, icy fingers in the night, and a dog who suddenly won't go near its master's bedroom. Appealing to children's inherent keen interest in mystery, Eric Wilson has skillfully woven accurate Canadian geographic and historic information into his writing. As such, these novels lend themselves to the integrated study of the mystery genre with Canadian geography, topics in social studies, and investigation units in science. The Ghost of Lunenburg Manor provides rich material for the study of setting, characterization, and plot development. This Novel Study provides a teacher and student section with a variety of activities, chapter questions, crossword, and answer key to create a well-rounded lesson plan.

Discovering Psychology Don Hockenbury, Sandra E. Hockenbury, 2016-03-02 Sandra Hockenbury and new coauthor Susan Nolan's remarkable textbook is grounded in the belief that all kinds of students can develop a real understanding of psychology and lasting scientific literacy. The authors act on that belief by using relatable personal stories to communicate the concepts of psychological science and the process of science itself, and by presenting important research in a clear, not oversimplified way. Hockenbury and Nolan also take full advantage of online learning, creating activities in LaunchPad that have students thinking about psychology as scientists do. New coauthor Susan Nolan of Seton Hall University was recently designated a Master Teacher by the Society for Teaching Psychology. She regularly gives talks about incorporating scientific literacy into the introductory course and across the psychology curriculum.
