Vaal University Of Technology Form 2015:

Environmental Science and Information Application Technology David Chan, 2015-06-29 Environmental Science and Information Application Technology contains selected papers from the 2014 5th International Conference on Environmental Science and Information Application Technology ESIAT 2014 Hong Kong 7 8 November 2014 The book covers a wide variety of topics Global Environmental Change and Ecosystems Management Graphic and I Corrupted Jonathan D Jansen, 2023-02-01 In South African higher education the images of dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions Burning tyres Damaged buildings Injury and sometimes death Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially for those universities caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly

Southern Resistance in Critical Perspective Marcel Paret, Carin Runciman, Luke Sinwell, 2017-03-27 From the Arab Uprising to anti austerity protests in Europe and the US Occupy Movement to uprisings in Brazil and Turkey resistance from below is flourishing Whereas analysts have tended to look North in their analysis of the recent global protest wave this volume develops a Southern perspective through a deep engagement with the case of South Africa which has experienced widespread popular resistance for more than a decade Combining critical theoretical perspectives with extensive qualitative fieldwork and rich case studies Southern Resistance in Critical Perspective situates South Africa's contentious democracy in relation to both the economic insecurity of contemporary global capitalism and the constantly shifting political terrain of post apartheid nationalism The analysis integrates worker community and political party organizing into a broader narrative of resistance bridging historical divisions between social movement studies labor

 Fourteen papers are presented here in honour of John Gowlett John has a wide range of research interests primarily focused
 on the human genus Homo and is a world leader in understanding the cognitive and behavioural preconditions necessary for
 the emergence of complex behaviours such as language and art Lesser Flamingos Lothar Krienitz, 2018-12-31 This book
 provides insights into the fascinating life of the Lesser Flamingo *Phoeniconaias minor* and describes how this enigmatic bird
 has adapted to the extreme conditions of tropical soda lakes and can even withstand the caustic effects of brine However
 humans are increasingly disrupting the natural cycles of these wetlands and for these pink birds characteristic of these salt
 lakes it is becoming more and more difficult to find suitable habitats food and breeding grounds Their fate is considered a
 cautionary example of man's dealings with nature Will the Lesser Flamingo survive in a man-made world Flamingos are
 considered to be an embodiment of the Phoenix and the author interweaves his personal experiences with and observations
 of the flamingos unusual habitats with the Phoenix motif in order to stimulate reflection on the circle of life Written in an
 accessible style that combines science biological information and the author's own travels and fieldwork the book also
 includes a wealth of captivating images As such it offers a unique resource for biologists and nature loving Africa and Asia
 enthusiasts alike *Inequality Studies from the Global South* David Francis, Imraan Valodia, Edward Webster, 2020-05-04
 This book offers an innovative interdisciplinary approach to thinking about inequality and to understanding how inequality is
 produced and reproduced in the global South Without the safety net of the various Northern welfare states inequality in the
 global South is not merely a socio-economic problem but an existential threat to the social contract that underpins the
 democratic state and society itself Only a response that is firmly grounded in the context of the global South can hope to
 address this problem This collection brings together scholars from across the globe with a particular focus on the global
 South to address broad thematic areas such as the conceptual and methodological challenges of measuring inequality the
 political economy of inequality in the global South inequality in work households and the labour market and inequalities in
 land spaces and cities The book concludes by suggesting alternatives for addressing inequality in the global South and
 around the world The pioneering ideas and theories put forward by this volume make it essential reading for students and
 researchers of global inequality across the fields of sociology economics law politics global studies and development studies

Pleistocene Archaeology of Africa Amanuel Beyin, David K. Wright, Jayne Wilkins, Deborah I. Olszewski, 2023-08-17 This handbook showcases an Africa wide compendium of Stone Age archaeological sites and methodological advances that have improved our understanding of hominin lifeways and biogeography in the continent. The focal time spans the Pleistocene Epoch c. 2.5 million to 11,700 years ago during which important human traits such as obligate bipedalism that freed the hands to engage in creative activities, a large brain relative to body size, language, and social complexity developed in the general forms that they are found today. The handbook is the first of its kind and it is expected to play a significant role in human evolutionary research by collating the African Stone Age record which exists in a fragmented state along the lines of national boundaries and colonial experiences. Showcasing emerging conceptual and methodological advances in African Pleistocene archaeology. Providing reference datasets for teaching and researching African prehistory. Making Africa's Stone Age record accessible to researchers and students based in Africa who may not have access to journal publications where most new field discoveries are published. The Handbook features 128 chapters of which 116 are site entries grouped by the host countries and presented in an alphabetical order. A number of those site related entries examine multiple archaeological localities lumped under specific projects or study areas. The rest of the contributions deal with methodological topics such as luminescence and radiocarbon dating, field data recovery, lithic analysis, micromorphology, and hominin fossil and zooarchaeological records of Pleistocene Africa. The introductory chapter provides an historical overview of the development of Stone Age/Paleolithic archaeology in Africa beginning in the mid 19th century and paleoenvironmental and chronological frameworks commonly used to structure the continent's Pleistocene record. By making a good amount of African Stone Age literature accessible to researchers and the public, we wish to promote interest in human evolutionary research in the continent and elsewhere. Awarded the 2025 The Best Book Award by The Society of Africanist Archaeologists.
