That Saw Fire Pb Brown Wlaynee, 2013 There are some stories that should never be kept away from the rest of the world because there is a need for the rest of the world to know that things are not always the way we think they are or the manner in which we imagine them sometimes And the story about The Generation That Saw Fire is a unique one to broaden our perspective on the changing world It gives us information on what others are going through beyond our borders and how appreciative we should be in this world when we find ourselves in societies that offer peace and stability for its people This book The Generation That Saw Fire also inspires us not to let go of our dreams even when we find ourselves in the midst of difficulties because difficulties are the ones that always make our dream a changing one for the rest of the world So as long we have life we should learn to endure to the end of our dreams or our visions because there is no success without difficulties
