The Neuro-Consumer Anne-Sophie Bayle-Tourtoulou,Michel Badoc,2020-04-24 Neuroscientific research shows that the great majority of purchase decisions are irrational and driven by subconscious mechanisms in our brains This is hugely disruptive to the rational logical arguments of traditional communication and marketing practices and we are just starting to understand how organizations must adapt their strategies This book explains the subconscious behavior of the neuro consumer and shows how major international companies are using these findings to cast light on their own consumers behavior Written in plain English for business and management readers with no scientific background it focuses on how to adapt marketing and communication to the subconscious and irrational behaviors of consumers the direct influence of the primary senses sight hearing smell taste touch on purchasing decisions and the perception of communications by customers brains implications for innovation packaging price retail environments and advertising the use of nudges and artifices to increase marketing and communication efficiency by making them neuro compatible with the brain s subconscious expectations the influence of social media and communities on consumers decisions when collective conscience is gradually replacing individual conscience and recommendation becomes more important than communication and the ethical limits and considerations that organizations must heed when following these principles Authored by two globally recognized leaders in business and neuroscience this book is an essential companion to marketers and brand strategists interested in neuroscience and vital reading for any advanced student or researcher in this area

Le neuro-consommateur Anne-Sophie Bayle-Tourtoulou, Michel Badoc, 2016-11-10 Alors que le consommateur se croit conscient et rationnel, son cerveau prend le plus souvent des décisions inconscientes et irrationnelles. Fondé sur de multiples recherches neuroscientifiques et sur de nombreuses applications en entreprises, cet ouvrage est le premier livre fondamental apportant une vision complète et approfondie sur les décisions d'achats inconscientes et instinctives des consommateurs. Il présente de nouvelles approches pour le marketing et la communication en intégrant l'influence sur le comportement des consommateurs des marques sensorielles, des nudges de l'émergence d'une conscience collective manant des réseaux sociaux. S'interdisant tout prosélytisme, il contribue à améliorer la qualité du marketing et de la communication ; il permet aussi à chaque client de faire des achats raisonnés en se sensibilisant aux artifices utilisés pour le persuader.

Les clés de l'autonomie Stéphanie Desfontaines, Stéphane Montier, 2012-05-15 En période d'incertitude et de complexité, l'autonomie apporte aux individus et aux organisations des réponses adaptées : elle génère une forte capacité à collaborer et innover, fait émerger de nouveaux talents et permet de fonder un nouveau management conciliant performance et bien-être. Forts de dix années de pratique en organisation, les auteurs mettent en lumière les mécanismes de l'autonomie et proposent un modèle pour sortir de la dépendance et devenir soi-même autonome et accompagner concrètement l'autonomie au quotidien, tant au niveau individuel que collectif. Ce nouvel clairage s'appuie sur de solides références théoriques des sociologues comme Edgar Morin et Michel Crozier, des penseurs comme Paul Watzlawick des spécialistes du management tels que Will Schutz de la connaissance comme Jean-Yves Prax et du coaching comme Vincent Lenhardt. Illustré par de nombreux exemples et cas pratiques, ce livre propose un modèle universel puisque transposable des domaines aussi variés que le management, le coaching, le développement personnel, la politique et s'adresse à tous les professionnels de l'accompagnement : managers, consultants, coachs, formateurs et thérapeutes. Il leur apportera une définition précise de l'autonomie et des capacités qu'elle permet de développer, un modèle puissant pour développer l'autonomie dans ses relations, mode de l'autonomie relationnelle, et dans ses actions, mode de l'autonomie stratégique des méthodes concrètes pour accompagner l'autonomie au quotidien, tape par tape. Avec une préface de Vincent Lenhardt.
