Further the 5 Mock tests are also revised as per the latest pattern. The book proves to be quite student friendly as it starts from a basic level and moves to an expert level. Structure of the book: The book has been divided into three parts: Verbal Ability, Verbal Reasoning, Reading Comprehension, which have been divided into chapters. Each chapter consists of: 1. Theory with Illustrations, 2. Foundation Level Exercise, 3. Standard Level Exercise, 4. Expert Level Exercise, 5. Solutions to the 3 levels of exercises. The Verbal Ability section focuses on Basics of English Grammar, Vocabulary, Common errors. The Verbal Reasoning section focuses on Parajumbles, Critical Reasoning, Fact Inference, Judgement, and Passage Completion. Logical conclusion of Paragraphs. The Reading Comprehension section focuses on comprehension of passages of different genres based on the latest patterns. The theory is followed by 3 levels of exercises: Foundation Level, Standard Level, and Expert Level. The detailed solution to each and every question has been provided immediately at the end of the 3 exercises. Foundation Level: Here the focus is to expose the students to solve problems based on the concepts they have learned in theory part. The student develops a good foundation and is ready for the Standard level. Standard Level: The Standard level is a collection of excellent quality problems which will test a student on the application of the concepts learned in various real-life situations. The problems provide a good platform to develop a very good problem-solving aptitude so as to take up the expert level confidently. Expert Level: This is the toughest part of the book and involves the trickiest questions on the concepts involved. Here most of the problems will pose good challenge to the students. The three sections contain past questions of various MBA entrance exams like CAT, GMAT, XAT, IIFT, FMS. At the end of the book 5 Mock Tests are provided based on the exact pattern of latest CAT exams. The solutions to the test are provided at the end of the tests.

*Culture and Identity through English as a Lingua Franca* Will Baker, 2015-07-01 The use of English as a global lingua franca has given rise to new challenges and approaches in our understanding of language and communication. One area where ELF (English as a lingua franca) studies, both from an empirical and theoretical orientation, have the potential for significant developments is in our understanding of the relationships between language, culture, and identity. ELF challenges traditional assumptions concerning the purported inexorable link between a language and a culture. Due to the multitude of users and contexts of ELF communication, the supposed language, culture, and identity correlation often conceived at the national level appears simplistic and naïve. However, it is equally naïve to assume that ELF is a culturally and identity-neutral form of communication. All communication involves participants, purposes, contexts, and histories, none of which are neutral. Thus, we need new approaches to understanding the relationship between language, culture, and identity which are able to account for the multifarious and dynamic nature of ELF communication.
