pedagogical principles of using pop songs in class as well as the pros and cons of teaching through pop songs are presented. The practical part is based on the findings of three surveys I have conducted in the field of using songs in the EFL classroom. In the first part of the research I present an analysis of questionnaires which I distributed among English teachers at lower and upper secondary schools and grammar schools. In the second part of the research I describe students' attitudes to pop song based lessons which I taught during my teaching practice at grammar schools. In the third part of the research I analyze the types of songs presented in commonly used textbooks at lower and upper secondary schools. In addition I present a self-developed teaching material containing a list of pop songs suitable for the EFL classroom. In the last part of the practical part I answer the research questions and provide some implications for my own teaching.
