Identity Terence Schoone-Jongen, 2008 Each year thousands of communities across the United States celebrate their ethnic heritages values and identities through the medium of festivals Drawing together elements of ethnic pride nostalgia religious values economic motives cultural memory and a spirit of celebration these festivals are performances that promote and preserve a community's unique identity and heritage while at the same time attempting to place the ethnic community within the larger American experience Although these aims are pervasive across ethnic heritage celebrations two festivals that appear similar may nevertheless serve radically different social and political aims Accordingly *The Dutch American Identity* examines five Dutch American festivals three of which are among the oldest ethnic heritage festivals in the United States in order to determine what such festivals mean and do for the staging communities Although Dutch Americans were historically among the first ethnic groups to stage ethnic heritage festivals designed to attract outside audiences and despite the fact that several Dutch American festivals have met with sustained success little scholarship has focused on this ethnic group's festivals Moreover studies that have considered festivals staged by communities of European descent have typically focused on a single festival *The Dutch American Identity* thus on the one hand seeks to call attention to the historical development and current sociocultural significance of Dutch American heritage festivals On the other hand this study aims to elucidate the ties that bind the five communities that stage these festivals together rather than studying one festival in isolation from the others Creatively combining several methodologies *The Dutch American Identity* describes and analyzes how the social political and ethical values of the five communities are expressed performed acted out represented costumed and displayed in their respective festivals Rather than relying on familiar even stereotypical notions of the Midwest rural America conservative America etc that often appear in contemporary political discourse Schoone Jongen shows just how complex and contradictory these festivals are in the ways they represent each community At the same time by placing these festivals within the context of American history Schoone Jongen also demonstrates how and why each festival is a microcosm of particular cultural social and political developments in modern America *The Dutch American Identity* is an important book for sociology performance studies folklore immigration history anthropology and cultural history collections

Vale, 1997 Rolling green hills dotted with Holstein cows red barns and blue silos The Great Lakes ports at Superior Ashland and Kenosha A Polish wedding dance or a German biergarten in Milwaukee The dappled quiet of the Chequamegon forest A weatherbeaten but tidy town hall at the intersection of two county trunk highways Ojibwa families gathering wild rice into canoes The boat ride through the Dells The upland ridges of the Driftless Area falling away into hidden valleys These are images of Wisconsin s land and life images that evoke a strong sense of place This book *Wisconsin Land and Life* is an exploration of place a series of original essays by Wisconsin geographers that offers an introduction to the state s natural environment the historical processes of its human habitation and the ways that nature and people interact to create distinct regional landscapes To read it is to come away with a sweeping view of Wisconsin s geography and history the glaciers that carved lakes and moraines the soils and climate that fostered the prairies and great northern pine forests the early Native Americans who began to shape the landscape and who established forest trails and river portages the successive waves of Europeans who came to trade in furs mine for lead and

Jillian M. Rickly-Boyd, Daniel C. Knudsen, Lisa C. Braverman, 2016-02-24 Drawing upon theories of landscape and performance this work weaves together existing tourism literature with new scholarship to forge a geographically informed theory of tourism Such a theory integrates the ways in which places are co produced circulated interpreted experienced and performed for and by tourists tourism boards and even as everyday spaces Bringing together theories of ritual Peircean semiotics ideology and performance the authors blend the often separate literatures of tourism sites and touristic practices Whereas most tourism texts focus on a part of the tourism equation the tourism site or the tourist experience a geographic theory of tourism brings these constituent parts together in thinking about notions of place Place processes are central to geography as well as tourism studies because tourism facilitates encounters with distinct locations As this book argues considering tourism as performative draws disparate areas of tourism theory together to better understand the ways tourism happens in and across places **Log Home Living**, 2003-03 Log Home Living is the oldest largest and most widely distributed and read publication reaching log home enthusiasts For 21 years Log Home Living has presented the log home lifestyle through striking editorial photographic features and informative resources For more than two decades Log Home Living has offered so much more than a magazine through additional resources shows seminars mail order bookstore Web site and membership organization That s why the most serious log home buyers choose Log Home Living
