- You can apply for as many scholarships as possible so long as you meet the requirements.
- There is no cut off mark as there is fixed number of persons that must get the scholarship. That is, the candidates determine the cut off mark.
- If the exam seems difficult, it doesn't just apply to you alone, it applies to other candidates too.
- The aptitude test aims at testing your ability to solve problems correctly at the least possible time.
- You must write the ones you know first and in a case where you are given all the papers at once, get to the ones that may not involve much calculation.
- The instructions of the invigilators and those on the question paper are the key to answering the test question well. Note:

doing perfectly what should not be done is a synonym to time wasting.

- **NOTE:** All questions in this handbook may not be repeated
