

1-1 Lesson Reading Guide

Expressions and Formulas

Get Ready for the Lesson

Read the introduction to Lesson 1-1 in your textbook.

- Nurses use the formula $F = \frac{V \times d}{t}$ to control the flow rate for IVs. Name the quantity that each of the variables in this formula represents and the units in which each is measured.

F represents the _____ and is measured in _____ per minute.

V represents the _____ of solution and is measured in _____.

d represents the _____ and is measured in _____ per milliliter.

t represents _____ and is measured in _____.

- Write the expression that a nurse would use to calculate the flow rate of an IV if a doctor orders 1350 milliliters of IV saline to be given over 8 hours, with a drop factor of 20 drops per milliliter. Do not find the value of this expression.

Read the Lesson

- There is a customary order for grouping symbols. Brackets are used outside of parentheses. Braces are used outside of brackets. Identify the innermost expression(s) in each of the following expressions.
 - $[(3 - 2^2) + 8] \div 4$
 - $9 - [5(8 - 6) + 2(10 + 7)]$
 - $(14 - [8 + (3 - 12)^2]) \div (6^2 - 100)$
- Read the following instructions. Then use grouping symbols to show how the instructions can be put in the form of a mathematical expression.
Multiply the difference of 13 and 5 by the sum of 9 and 21. Add the result to 10. Then divide what you get by 2.
- Why is it important for everyone to use the same order of operations for evaluating expressions?

Remember What You learned

- Think of a phrase or sentence to help you remember the order of operations.

Good Toys, Bad Toys

Andrew McClary, 2015-02-18 In early America most children had only a few toys and parents received advice from family and friends on the best ways to make and use toys By the early 1900s the Industrial Revolution was producing a new world of toys and giving more parents the wealth to buy them Mass media also sang the praises of these new factory made store bought toys but that began to change as early as the mid 1900s when the mass media was used to inform parents of the many dangers of children s toys Many encourage violence sexism racism and some are actually unsafe and unhealthy The development of children s toys from early America to the present time and the shifting opinions of them expressed by parents and the mass media throughout this time are the main subjects of this book The first section discusses the many problems with toys while the second puts these problems in historical perspective How have these problems changed and are still changing today Might today s toys be about to enter a time when they will be better than ever The third section argues that many media toy watchers are biased toward the negative giving toys more of a black eye than they deserve and considers the challenges that face today s parents as they try to choose the best toys for their children
