Corpus-Assisted Discourse Studies Mathew Gillings, Gerlinde Mautner, Paul Baker,2023-04-06 The breadth and spread of corpus assisted discourse studies CADS indicate its usefulness for exploring language use within a social context However its theoretical foundations limitations and epistemological implications must be considered so that we can adjust our research designs accordingly This Element offers a compact guide to which corpus linguistic tools are available and how they can contribute to finding out

more about discourse It will appeal to researchers both new and experienced within the CADS community and beyond

Using Corpora to Learn about Language and Discourse Linda Lombardo, 2009 Considerable progress has been made in the use of corpora for research purposes to describe language in use and more recently through a CADS corpus assisted discourse studies approach to identify the discourse features of specific text genres While the potential benefits of working with corpora in the classroom have been recognised there has been a lag in the promulgation of guidelines for carrying out meaningful corpus work with language learners and teachers in mind The papers in this volume aim to make a contribution toward filling that gap by providing an in depth account of innovative corpus work most of which has actually been carried out with real learners in the classroom Authors provide valuable insights into ways of structuring corpus work for specific target learners as well as suggestions for resolving problematic issues that have arisen and avoiding errors that have been made with learners and in their own research and experimentation The transparency and honesty with which they present their methodology and results along with the successful techniques they have developed constitute a step forward in defining good and bad practice in the use of corpora in learning
