

HOW TO USE QUOTES IN AN ESSAY

DEFINITION

Using quotes in an essay involves properly citing the source of the quote. This can be done through in-text citations or by including a reference page at the end of the essay. Quotes should be used to support or expand on ideas in the essay and should be introduced and explained to provide context for the reader.

EXAMPLE

"According to John Smith, 'the most important factor in achieving success is hard work' " (Smith, 2020, p.25) or
"The concept of 'the American dream' has been discussed by many scholars, with James Truslow Adams famously defining it as 'that dream of a land in which life should be better and richer and fuller for everyone' " (Adams, 1931, p.18) It's also important to explain the significance of the quote, so the reader can understand the context.

K. Singh, 2022-03-13

English has become a global language In the minds of many worldwide it guarantees a better life through enhanced social and economic opportunities As a result English teachers are in high demand Some claim that English is attractive because as it has spread throughout the world it has severed it s who adopt it Grammar rules and vocabulary can simply be taught to eager learners so they can use English for social and economic advancement However learning English is more than mastering a certain number of words and memorizing a set of grammar rules Although plugging words it is less effective for language learners Language acquisition studies have discovered that both native and nonnative speakers learn English best not by being taught rules but by interacting with other users of the language either orally or through print This interaction introduces a social element to grammar that brings with it hidden social messages For example suppose a language learner has been taught that English has a very simple way to make requests simply say the verb with no subject being expressed as in Open the door After class the student is carrying a pile of books and comes to a closed door What would be the reaction of other English speakers if the student were to shout out to someone passing nearby Open the door The student would probably be considered rude Could you please open the door which has the form of a question rather than a command would probably be considered more polite Suppose an English teacher sees one of her students writing with a crayon rather than a pencil She helpfully asks Don t you have a pencil If the student answers yes does that mean that the student does or does not have a pencil The answer depends on which part of the world the student is from
