David Cummins,Richard A. Derrig,2012-12-06 The problem of solvency is in fact as old as insurance The history of the industry knows many ways to meet the risks involved with underwriting such as spreading the risk portfolio Cato Senior already applied it risk selection reserve funds reinsurance etc Whilst these measures too often proved ineffective the establish ment of legislative control and public supervision ensued However not until the last few decades has the solvency issue become an ob ject of intensive studies very much thanks to the progress of related empirical and theoretical knowledge and in the under standing of the concerned complicated processes The research activities have grown extensively

in many countries in recent years The more the studies advance the more new relevant aspects are detected and a great variety of alternative proposals have come up for discussion Therefore it has become necessary to attempt a survey of the whole problem area in order to be able to place the quite numerous pieces of knowledge in their proper context and also among other things to avoid the pitfalls of handling isolated problems omitting vital tie ins to the environment Many of the relevant problems and subproblems are still lacking adequate and well tested solutions Therefore a survey of the whole problem area can also hopefully serve as guidance for future research efforts **Best's Key Rating Guide** ,2009
