Vaal Intake 2015:

Environmental Science and Information Application Technology David Chan, 2015-06-29 Environmental Science and Information Application Technology contains selected papers from the 2014 5th International Conference on Environmental Science and Information Application Technology ESIAT 2014 Hong Kong 7 8 November 2014 The book covers a wide variety of topics Global Environmental Change and Ecosystems Management Graphic and I Food Fortification in a Globalized World M.G.Venkatesh Mannar, Richard F. Hurrell, 2018-06-29 Food Fortification in a Globalized World outlines experiences over the past 50 years and future potential for the application of food fortification across a variety of foods in the industrialized and developing world The book captures recent science and applications trends in fortification including emerging areas such as biofortification nutraceuticals and new nutrient intake recommendations standards policy and regulation The book proposes a balanced and effective food fortification strategy for nations to adopt In covering the most technical scientific details in an approachable style this work is accessible to a range of practitioners in industry government NGOs academia and research Food fortification has become an increasingly significant strategy to address gaps in micronutrient intakes in populations with measurable impact in both industrialized and developing countries While the positive impacts are well recognized there are new concerns in some countries that excessive fortification of foods outdated nutritional labeling rules and misleading marketing tactics used by food manufacturers may result in young children consuming harmful amounts of some vitamins and minerals Presents the latest science on fortification for the prevention of micronutrient deficiencies Includes emerging areas such as biofortification nutraceuticals and new nutrient intake recommendations standards regulations practices and policies from around the world Summarizes evidence of application of food fortification and measured impact on public health Discusses how public policy impacts fortification of foods and nutritional deficiencies Considers the complex economics of and market for fortified foods Doctoral Education in South Africa Cloete, Nico, Mouton, Johann, 2015-12-08 Worldwide in Africa and in South Africa the importance of the doctorate has increased disproportionately in relation to its share of the overall graduate output over the past decade This heightened attention has not only been concerned with the traditional role of the PhD namely the provision of future academics rather it has focused on the increasingly important role that higher education and particularly high level skills is perceived to play in national development and the knowledge economy This book is unique in the area of research into doctoral studies because it draws on a large number of studies conducted by the Centre of Higher Education Trust CHET and the Centre for Research on Evaluation Science and Technology CREST as well as on studies from the rest of Africa and the world In addition to the historical studies new quantitative and qualitative research was undertaken to produce the evidence base for the analyses presented in the book The findings presented in Doctoral Education in South Africa pose anew at least six tough policy questions that the country has struggled with since 1994 and continues to struggle with if it wishes to gear up the system to

meet the target of 5 000 new doctorates a year by 2030 Discourses framed around the single imperatives of growth efficiency transformation or quality will not however generate the kind of policy discourses required to resolve these tough policy questions effectively What is needed is a change in approach that accommodates multiple imperatives and allows for these to be addressed simultaneously

Nutrition Economics Suresh Babu, Shailendra Gajanan, J. Arne Hallam, 2016-11-02 Nutrition Economics Principles and Policy Applications establishes the core criteria for consideration as new policies and regulations are developed including application based principles that ensure practical effective implementation of policy From the economic contribution of nutrition on quality of life to the costs of malnutrition on society from both an individual and governmental level this book guides the reader through the factors that can determine the success or failure of a nutrition policy Written by an expert in policy development and incorporating an encompassing view of the factors that impact nutrition from an economic standpoint and their resulting effects this book is unique in its focus on guiding other professionals and those in advanced stages of study to important considerations for correct policy modeling and evaluation As creating policy without a comprehensive understanding of the relevant contributing factors that lead to failure is not an option this book provides a timely reference Connects the direct and indirect impacts of economic policy on nutritional status Provides practical insights into the analysis of nutrition policies and programs that will produce meaningful results Presents a hands on approach on how to apply economic theory to the design of nutritional policies and programs

Dealing with the Complex Interrelation of Intermittent Supply and Water Losses Bambos Charalambous, Chrysi Laspidou, 2017-08-15 The book provides a scientific approach into appraising Intermittent Water Supply IWS on a global scale through the analysis of available information and data based on a structured methodology for estimating the population affected by IWS worldwide both by country and by geographical regions The root causes and the implications of IWS are dealt with in a concise manner providing a detailed account of the reasons for resistance to change towards 24x7 supply A major contribution of the book is in providing an understanding of water losses in the context of IWS as well as the related difficulties in leakage detection and metering under such conditions A methodology is presented for transitioning from IWS to continuous supply covering technical social and communication issues which are considered of paramount importance for a successful transition Relevant case studies from across the globe are included in the book to provide evidence based information and data relating to the many and diverse challenges faced daily by water utilities operating their networks under IWS

The Psychosocial Aspects of a Deadly Epidemic Judy Kuriansky, 2016-03-21 Edited by a clinical psychologist who has been on the ground helping to develop psychosocial support for Ebola survivors in one of the hardest hit regions of West Africa this book explains the devastating emotional aspects of the epidemic and its impact on survivors and the population in West Africa families in the diaspora and people in the United States and other countries It also describes lessons learned from past epidemics like HIV AIDS and SARS and valuable approaches to healing from future epidemics While the devastating Ebola epidemic has

been contained the effects of this outbreak referred to by the World Health Organization as the most severe acute public health emergency seen in modern times have wreaked a tremendous emotional toll on the populations of West Africa as well as on families and survivors worldwide This groundbreaking book covers the psychosocial needs programs and policies related to the Ebola epidemic and examines broader lessons of the outbreak such as changes in the ways in which healing from future epidemics can be handled Edited by Judy Kuriansky PhD a noted clinical psychologist and United Nations NGO representative with extensive experience helping after disasters worldwide and direct experience gained from being on the ground in West Africa in the midst of the epidemic this book identifies and explains universal psychological factors at play in all such crises It debunks myths regarding Ebola and describes the resulting psychological and social harm caused by the epidemic The chapters cover overarching emotional issues and problems as well as the long term impact on at risk groups such as children women and health workers the impact of emotional issues on social and economic life responses of government officials media and various aid organizations and solutions being offered by groups worldwide including service and humanitarian organizations politicians policymakers and public health education groups

Emerging Contaminants in the Environment Hemen Sarma, Delfina C. Dominguez, Wen-Yee Lee, 2022-01-08

Emerging Contaminants in the Environment Challenges and Sustainable Practices covers all aspects of emerging contaminants in the environment from basic understanding to different types of emerging contaminants and how these threaten organisms their environmental fate studies detection methods and sustainable practices of dealing with contaminants Emerging contaminant remediation is a pressing need due to the ever increasing pollution in the environment and it has gained a lot of scientific and public attention due to its high effectiveness and sustainability The discussions in the book on the bioremediation of these contaminants are covered from the perspective of proven technologies and practices through case studies and real world data One of the main benefits of this book is that it summarizes future challenges and sustainable solutions It can therefore become an effective guide to the elimination through sustainable practices of emerging contaminants At the back of these explorations on sustainable bioremediation of emerging contaminants lies the set of 17 goals articulated by the United Nations in its 2030 Agenda for Sustainable Development adopted by all its member states This book provides academics researchers students and practitioners interested in the detection and elimination of emerging contaminants from the environment with the latest advances by leading experts in emerging contaminants the field of environmental sciences Covers most aspects of the most predominant emerging contaminants in the environment including in soil air and water Describes the occurrence of these contaminants the problems they cause and the sustainable practices to deal with the contaminants Includes data from case studies to provide real world examples of sustainable practices and emerging contaminant remediation

A Multilingual Perspective on the Diversification of Academic Writing Verbra Frances Pfeiffer, 2024-11-01 This book presents an analysis derived from data collected across South Africa Brazil and Switzerland focusing on multilingual academic writing

through translanguaging Exclusive to university students from these nations it examines the disparity between thinking in one language and writing in another Addressing the challenges faced by non native language writers it advocates for acknowledging student voices and identities in the decolonization of academic writing While briefly touching on code switching often deemed obsolete this book reframes it within the context of university level academic writing across the three countries Its primary objective is to illustrate how translanguaging along with voice and identity can be integrated into writing practices for non native language speakers Offering practical strategies for educators the research reveals student anxieties surrounding identity loss and voice neglect in academic settings Ultimately it suggests that accommodating multilingual students can alleviate their writing related stress fostering a more inclusive academic environment Professor Adelia Carstens commended the book for its valuable insights into translanguaging predicting a favorable reception worldwide
