**Visual Computing** Fabiana Rodrigues Leta,2014-06-17 This volume aims to stimulate discussions on research involving the use of data and digital images as an understanding approach for analysis and visualization of phenomena and experiments The emphasis is put not only on graphically representing data as a way of increasing its visual analysis but also on the imaging systems which contribute greatly to the comprehension of real cases Scientific Visualization and Imaging Systems encompass multidisciplinary areas with applications in many knowledge fields such as Engineering Medicine Material Science Physics Geology Geographic Information Systems among others This book is

a selection of 13 revised and extended research papers presented in the International Conference on Advanced Computational Engineering and Experimenting ACE X conferences 2010 Paris 2011 Algarve 2012 Istanbul and 2013 Madrid The examples were particularly chosen from materials research medical applications general concepts applied in simulations and image analysis and other interesting related problems

**Machine Learning With Radiation Oncology Big Data** Jun Deng, Issam El Naqa, Lei Xing, 2019-01-21 *Importance of body composition analysis in clinical nutrition* Clelia Madeddu, Lidia Santarpia, Maria Letizia Petroni, Alberto Bazzocchi, 2023-02-15 *XIII Mediterranean Conference on Medical and Biological Engineering and Computing 2013* Laura M. Roa Romero, 2013-10-01

The general theme of MEDICON 2013 is Research and Development of Technology for Sustainable Healthcare This decade is being characterized by the appearance and use of emergent technologies under development This situation has produced a tremendous impact on Medicine and Biology from which it is expected an unparalleled evolution in these disciplines towards novel concept and practices The consequence will be a significant improvement in health care and well fare i e the shift from a reactive medicine to a preventive medicine This shift implies that the citizen will play an important role in the healthcare delivery process what requires a comprehensive and personalized assistance In this context society will meet emerging media incorporated to all objects capable of providing a seamless adaptive anticipatory unobtrusive and pervasive assistance The challenge will be to remove current barriers related to the lack of knowledge required to produce new opportunities for all the society while new paradigms are created for this inclusive society to be socially and economically sustainable and respectful with the environment In this way these proceedings focus on the convergence of biomedical engineering topics ranging from formalized theory through experimental science and technological development to practical clinical applications
