Essays in Philosophical Synthesis Nicholas Rescher, 2023-09-02 This book presents a series of coordinated studies that explain and illustrate how philosophy must be developed systematically with its problems and topics bound together by links of reciprocal interconnection The book consists of two parts The first part consists of a series of case studies which illustrate how philosophical issues do not remain in neatly separated compartments but reach out in interrelationship with one another The second part analyzes the principle resources of philosophical methodology and shows in detail how and why they can only be implemented in a systemically interrelated manner Overall the book demonstrates and illustrates the systemic and holistic nature of philosophical inquiry

Essays on Some Theological Questions of the Day Henry Barclay Swete, 1906

An Essay on African Philosophical Thought Kwame Gyekye, 1995 In this sustained and nuanced attempt to define a genuinely African philosophy Kwame Gyekye rejects the idea that an African philosophy consists simply of the work of Africans writing on philosophy It must Gyekye argues arise from African thought itself relate to the culture out of which it grows and provide the possibility of a continuation of a philosophy linked to culture Offering a philosophical clarification and theology and ethics of the Akan of Ghana Gyekye argues that critical analyses of specific traditional African modes of thought are necessary to develop a distinctively African philosophy as well as cultural values in the modern world

The Arc of the Moral Universe and Other Essays Joshua Cohen, 2010 In this collection of essays Joshua Cohen locates ideas about democracy in three far ranging contexts First he explores the relationship between democratic values and history He then discusses democracy in connection with the views of defining political theorists in the democratic tradition John Locke John Rawls Noam Chomsky Juergen Habermas and Susan Moller Okin Finally he examines the place of democratic ideals in a global setting suggesting an idea of global public reason a terrain of political justification in global politics in which shared reason still plays an essential role All the essays are linked by his overarching claim that political philosophy is a practical subject intended to orient and guide conduct in the social world Cohen integrates moral social scientific and historical argument in order to develop this stance and he further confronts the question of whether a society conceived in liberty and dedicated to equality can endure At Gettysburg President Lincoln forcefully stated the question and expressed both hope and concern over this same struggle about an affirmative answer By enabling us to trace the arc of the moral universe the essays in this volume along with the companion collection *Philosophy Politics Democracy* give us some reasons for sharing that hope

Seven Essays on the Genealogy of Uncertainty Stephen Nash, Liza Rybak, 2024-09-30 Uncertainty is critical to economic theory mainly because it either supports or undermines many significant debates within economic theory Despite the significance of uncertainty this book represents the first attempt to comprehensively trace the genealogy of uncertainty which is a procedure that Nietzsche used in relation to morality one of the subjects that become logically redundant in the absence of uncertainty On the one hand this logical redundancy is problematic when considered in isolation given the

practical importance of morality On the other hand this logical redundancy becomes even more problematic given that at one time uncertainty was widely accepted as an important part of the philosophical system Here uncertainty played a pivotal role in terms of explaining practical decision making Such an appreciation of uncertainty has recently been set aside by modern philosophy which argues quantities of human labour provide virtually all economic value Such an explanation of economic value excludes uncertainty the many qualitative contributions of nature and morality even when one acknowledged the contribution to the understanding of uncertainty as proposed by Frank Knight in 1921 However in contrast to Knight who looked toward recent philosophy so as to support the existence of uncertainty this genealogy looks to support the significance of uncertainty by understanding the philosophy that supported the idea of uncertainty for thousands of years before the philosophy of John Locke Specifically Locke excludes uncertainty from the analysis of practical decision making in general and from economic decision making in particular Accordingly it can be anticipated that the enclosed genealogy will assist economists to more adequately develop the idea of uncertainty within economic theory

The Tree of Knowledge and Other Essays Wright, 2021-09-20 In an autobiographical introduction the author tells about the two forces which have shaped his intellectual life philosophy as an academic profession and philosophy as a search for a view of life The book accordingly divides in two parts The essays in the first part survey developments in logic and analytical philosophy in the perspective of the closing century and in the light of the author's long experience and participation in them There are also essays on Musil's criticism of Mach on the Finnish philosopher Eino Kaila's search for a monistic world view and on Wittgenstein's place on the cultural map of the century The papers in the second part deal with traits of contemporary civilization which have become problematic thanks to the impact of technological developments on political and social forms of life Humanism modernity and scientific rationality are key ideas taken up for critical scrutiny

Plutarch,2006-01-26 One of the greatest essayists of the Graeco Roman world Plutarch c AD 46 120 used an encyclopedic knowledge of the Roman Empire to produce a compelling and individual voice In this superb selection from his writings he offers personal insights into moral subjects that include the virtue of listening the danger of flattery and the avoidance of anger alongside more speculative essays on themes as diverse as God s slowness to punish man the use of reason by supposedly irrational animals and the death of his own daughter Brilliantly informed these essays offer a treasure trove of ancient wisdom myth and philosophy and a powerful insight into a deeply intelligent man **The Essays (I-LVIII) Or, Counsels Civil and Moral of Francis, Lord Verulam, Viscount St. Albans** Francis Bacon,1879 **Writing Essays** Roy Johnson,1992-07 This text covers all aspects of academic essay writing from understanding the question to the presentation of the finished essay The guidance notes may be used as a programme of advice or as a source of reference Five model essays are included which successfully answered questions on politics history philosophy sociology and literary studies The book also contains suggestions for further reading **Schopenhauer** David E. Cartwright,2010-03-29 This is the first comprehensive biography of Schopenhauer written in English Placing him in his historical and philosophical contexts David E Cartwright tells the story of Schopenhauer s life to convey the full range of his philosophy He offers a fully documented portrait in which he explores Schopenhauer s fractured family life his early formative influences his critical loyalty to Kant his personal interactions with Fichte and Goethe his ambivalent relationship to Schelling his contempt for Hegel his struggle to make his philosophy known and his reaction to his late arriving fame *Left Universalism, Africacentric Essays* Ato Sekyi-Otu,2018-08-06 *Left Universalism Africacentric Essays* presents a defense of universalism as the foundation of moral and political arguments and commitments Consisting of five intertwined essays the book claims that centering such arguments and commitments on a particular place in this instance the African world is entirely compatible with that foundational universalism Ato Sekyi Otu thus proposes a less conventional mode of Africentrism one that rejects the usual hostility to universalism as an imperialist Eurocentric hoax Sekyi Otu argues that universalism is an inescapable presupposition of ethical judgment in general and critique in particular and that it is especially indispensable for radical criticism of conditions of existence in postcolonial society and for vindicating visions of social regeneration The constituent chapters of the book are exhibits of that argument and question some fashionable conceptual oppositions and value apartheid This book will be of great interest to students and scholars in the fields of social and political philosophy contemporary political theory postcolonial studies African philosophy and social thought **The essays, i-(lviii) or, Counsels civil and moral of Francis lord Verulam, with intr. and notes by H. Lewis** Francis Bacon (visct. St. Albans.),1878 *Disease, Karma and Healing* Rudolf Steiner,2013-11-21 Today illness is almost universally regarded as either a nuisance or a grave misfortune In contrast to this conventional thinking Rudolf Steiner places the suffering caused by disease in a broad vista that includes an understanding of karma and personal metamorphosis Illness comes to expression in the physical body but

mostly does not originate in it says Steiner and thus a key part of the physician's work involves gaining insight into the whole nature of an individual his essential core being From this perspective illness offers us the opportunity for deeper healing Throughout this volume Rudolf Steiner draws our attention to the greater scope of the smallest phenomena even a seemingly insignificant headache He casts vivid light on things we normally take for granted such as the human capacity to laugh or cry and in the process broadens our vision of human existence The apparently mundane human experiences of forgetting and remembering are intrinsic to our humanity for example and have unsuspected moral and spiritual dimensions Steiner's insights are never merely lofty or nebulously spiritual but time and again connect with the minutest realities of everyday life In these 18 lectures delivered on a weekly basis as part of an ongoing course covering the whole field of spiritual science Steiner elaborates in detail on the diverse interplay of the human being's constituting aspects physical body etheric body astral body and ego or I in relation to rhythmic processes developing consciousness the history of human evolution and our connection with the cosmos Within this broad canvas some of his themes acquire a very distinctive focus such as vivid accounts of the intimate history of Christianity creating out of nothing the interior of the earth and health and illness Other topics include the nature of pain suffering pleasure and bliss the four human group souls of lion bull eagle and man the significance of the Ten Commandments the nature of original sin the deed of Christ and the adversary powers of Lucifer Ahriman and the Asuras evolution and involution the Atlantean period and even Friedrich Nietzsche's madness *The World of the Senses* Rudolf Steiner, 2014 In this concise series of lectures Rudolf Steiner shows how the human senses reveal the mysterious world of the will which is at once a spiritual and physical phenomenon The senses act as a portal connecting our physical and etheric bodies with what Steiner refers to as worlds of all pervading will and all pervading wisdom He elaborates this theme giving some unexpected and delightful insights into the senses of hearing and sight and in particular how we experience colour Steiner suggests that divine spiritual beings had different intentions for the formation of physical human beings but that adversary powers caused disruption leading to a more materialized constitution He describes disorders in the connections between the human physical etheric astral and ego bodies and the ill effects of one aspect overpowering the others He gives insight into human glandular secretions and why we need to eat and digest also connected to the intervention of adversary beings

CONSCIOUS SOCIETY Rudolf Steiner, 2018-04-24 Delivered in the context of post war cultural and social chaos these lectures form part of Rudolf Steiner's energetic efforts to cultivate social understanding and renew culture through his innovative ideas based on threefolding Steiner develops a subtle and discerning perception of how social dynamics could change and heal if they were founded on real insight into our threefold nature as individuals social beings and economic participants in the world He doesn't offer a programmatic agenda for change but a real foundation from which change can organically grow Social forms and reforms says Steiner are created together not imposed by lone geniuses Nevertheless the detail of some of the thoughts and ideas he presents here as a

possible model down to the economic specifics of commodity labour taxation ground rent and capitalism itself are staggering in their clarity and originality This is no mystic effusion but a heartfelt plea backed by profound insights to change our thinking and the world we live in As he points out thoughts create reality and so it is vital how and what we think Among the many contemporary and highly relevant topics Steiner discusses here are the nature of money and capital taxation and the state free enterprise and initiative capitalism and Marxism the relationship between employer and employee added value theory and the concept of commodity and class consciousness the proletariat and the bourgeoisie

The AIMS OF ANTHROPOSOPHY Rudolf Steiner, 2020-06-26 In his final lectures to the general public Rudolf Steiner speaks with great clarity and purpose about the inner and outer necessity of the anthroposophical impulse in modern times Following the fire that destroyed the first Goetheanum building in Dornach Switzerland Steiner had focused his efforts on rebuilding and reorganizing the Anthroposophical Society But he also continued to travel and speak to the public in Prague Vienna and Basel to explain the purpose of the Goetheanum and to elucidate the broader aims of his spiritual work These lectures including a semi public series in Dornach are gathered here and published in English for the first time together with an introduction notes and index The volume features the following lectures The Purpose of the Goetheanum and the Aims of Anthroposophy Enhancing Human Powers of Perception to Develop Imagination Inspiration and Intuition Human Soul Life and the Development of Imagination Inspiration and Intuition Experience and Perception of the Activities of Thinking and Speech The Physical World and Moral Spiritual Impulses Four Stages of Inner Experience Perceiving the Etheric World Soul s Eternity in the Light of Anthroposophy Human Development and Education in the Light of Anthroposophy Supersensible Perception Anthroposophy as a Contemporary Need Anthroposophy and the Ethical and Religious Life How Do We Gain Knowledge of the Supersensible World
