*Horace Vernet and the Thresholds of Nineteenth-Century Visual Culture* Daniel Harkett, Katie Hornstein, 2017-03-07 This collection reconsiders the life and work of Emile Jean Horace Vernet 1789 1863 presenting him as a crucial figure for understanding the visual culture of modernity The book includes work by senior and emerging scholars showing that Vernet

was a multifaceted artist who moved with ease across the thresholds of genre and media to cultivate an image of himself as the embodiment of modern France In tune with his times skilled at using modern technologies of visual reproduction to advance his reputation Vernet appealed to patrons from across the political spectrum and made works that nineteenth century audiences adored Even Baudelaire who reviled Vernet and his art and whose judgment has played a significant role in consigning Vernet to art historical obscurity acknowledged that the artist was the most complete representative of his age For those with an interest in the intersection of art and modern media politics imperialism and fashion the essays in this volume offer a rich reward

**A Planetary Lens** Audrey Goodman, 2021-10 A Planetary Lens explores how women writers and photographers revise and reimagine landscape identity and history in the U S West

**The Living Line** Robin Veder, 2015-04-07 Robin Veder's *The Living Line* is a radical reconceptualization of the development of late nineteenth and early twentieth century American modernism The author illuminates connections among the histories of modern art body cultures and physiological aesthetics in early twentieth century American culture fundamentally altering our perceptions about art and the physical and the degree of cross pollination in the arts *The Living Line* shows that American producers and consumers of modernist visual art repeatedly characterized their aesthetic experience in terms of kinesthesia the sense of bodily movement They explored abstraction with kinesthetic sensibilities and used abstraction to achieve kinesthetic goals In fact the formalist approach to art was galvanized by theories of bodily response derived from experimental physiological psychology and facilitated by contemporary body cultures such as modern dance rhythmic gymnastics physical education and physical therapy Situating these complementary ideas and exercises in relation to enduring fears of neurasthenia Veder contends that aesthetic modernism shared industrial modernity's objective of efficiently managing neuromuscular energy In a series of finely grained and interconnected case studies Veder demonstrates that diverse modernists associated with the Armory Show the Société Anonyme the Stieglitz circle especially O Keeffe and the Barnes Foundation participated in these discourses and practices and that kinesthetic modernism greatly influenced the formation of modern art in America and beyond This daring and completely original work will appeal to a broad audience of art historians historians of the body and American culture in general

**No Laughing Matter** Angela Rosenthal, David Bindman, 2015-11-22 In the wake of the Charlie Hebdo attacks this collection which gathers scholars in the fields of race ethnicity and humor seems especially urgent Inspired by Denmark's Muhammad cartoons controversy the contributors inquire into the role that racial and ethnic stereotypes play in visual humor and the thin line that separates broad characterization as a source of humor from its power to shock or exploit The authors investigate the ways in which humor is used to demean or give identity to racial national or ethnic groups and explore how humor works differently in different media such as cartoons photographs film video television and physical performance This is a timely and necessary study that will appeal to scholars across disciplines

**Ecological Aesthetics** Nathaniel Stern, 2018-07-03 With this poetic and scholarly collection of stories about art artists and their

materials Nathaniel Stern argues that ecology aesthetics and ethics are inherently entwined and together act as the cornerstone for all contemporary arts practices An ecological approach says Stern takes account of agents processes thoughts and relations Humans matter concepts things not yet things politics economics and industry are all actively shaped in and as their interrelation And aesthetics are a style of and orientation toward thought and thus action Including dozens of color images this book narrativizes artists and artworks ranging from print to installation bio art to community activism contextualizing and amplifying our experiences and practices of complex systems and forces our experiences and practices of thought Stern an artist himself writes with an eco aesthetic that continually unfurls artful tactics that can also be used in everyday existence

**The Routledge Companion to Photography and Visual Culture** Moritz Neumüller,2018-09-21 The Routledge Companion to Photography and Visual Culture is a seminal reference source for the ever changing field of photography Comprising an impressive range of essays and interviews by experts and scholars from across the globe this book examines the medium s history its central issues and emerging trends and its much discussed future The collected essays and interviews explore the current debates surrounding the photograph as object art document propaganda truth selling tool and universal language the perception of photography archives as burdens rather than treasures the continual technological development reshaping the field photography as a tool of representation and control and more One of the most comprehensive volumes of its kind this companion is essential reading for photographers and historians alike

**From Point to Pixel** Meredith Hoy,2017-01-03 In this fiercely ambitious study Meredith Anne Hoy seeks to reestablish the very definitions of digital art and aesthetics in art history She begins by problematizing the notion of digital aesthetics tracing the nineteenth and twentieth century movements that sought to break art down into its constituent elements which in many ways predicted and paved the way for our acceptance of digital art Through a series of case studies Hoy questions the separation between analog and digital art and finds that while there may be sensual and experiential differences they fall within the same technological categories She also discusses computational art in which the sole act of creation is the building of a self generating algorithm The medium isn t the message what really matters is the degree to which the viewer can sense a creative hand in the art

**Against Immediacy** William Kaizen,2016-07-05 Against Immediacy is a history of early video art considered in relation to television in the United States during the 1960s and 1970s It examines how artists questioned the ways in which the people were

ideologically figured by the commercial mass media During this time artists and organizations including Nam June Paik Juan Downey and the Women's Video News Service challenged the existing limits of the one to many model of televisual broadcasting while simultaneously constructing more democratic bottom up models in which the people mediated themselves Operating at the intersection between art history and media studies Against Immediacy connects early video art and the rise of the media screen in gallery based art to discussions about participation and the activation of the spectator in art and electronic media moving from video art as an early form of democratic media practice to its canonization as a form of high art

*Playing with Earth and Sky* James Housefield, 2016-07-05 *Playing with Earth and Sky* reveals the significance astronomy geography and aviation had for Marcel Duchamp widely regarded as the most influential artist of the past fifty years Duchamp transformed modern art by abandoning unique art objects in favor of experiences that could be both embodied and cerebral This illuminating study offers new interpretations of Duchamp's momentous works from readymades to the early performance art of shaving a comet in his hair It demonstrates how the immersive spaces and narrative environments of popular science from museums to the modern planetarium prepared paths for Duchamp's nonretinal art By situating Duchamp's career within the transatlantic cultural contexts of Dadaism and Surrealism this book enriches contemporary debates about the historical relationship between art and science This truly original study will appeal to a broad readership in art history and cultural studies

**From Snapshots to Social Media - The Changing Picture of Domestic Photography** Risto Sarvas, David M. Frohlich, 2011-02-09 From Snapshots to Social Media describes the history and future of domestic photography as mediated by technological change Domestic photography refers to the culture of ordinary people capturing sharing and using photographs and is in a particular state of flux today as photos go digital The book argues that this digital era is the third major chapter in the 170 year history of the area following the portrait and Kodak eras of the past

History shows that despite huge changes in photographic technology and the way it has been sold people continue to use photographs to improve memory support communication and reinforce identity The future will involve a shift in the balance of these core activities and a replacement of the family album with various multimedia archives for individuals families and communities This raises a number of issues that should be taken into account when designing new technologies and business services in this area including the ownership and privacy of content multimedia standards home ICT infrastructure and younger and older users of images The book is a must for designers and engineers of imaging technology and social media who want a better understanding of the history of domestic photography in order to shape its future It will also be of value to students and researchers in science and technology studies and visual culture as a fascinating case study of the evolving use of photographs and photographic technology in Western society
