Handbook of Australian School Psychology Monica Thielking,Mark D. Terjesen,2017-01-26 This handbook addresses the current state and practice of school psychology with a focus on standards unique to Australia including historical legal ethical practical and training factors It provides a compilation of the most current research based practices as well as guidelines for evidence based assessment and intervention for common conditions e g autism depression learning

disabilities and for delivering appropriate services to targeted student populations e.g. LGBT, gifted, medical issues. Chapters discuss the application of national and international school psychology practices within the Australian educational and psychological structure. The handbook also examines the lack of formal resources specific to Australia's culture and psychology systems with its unique mix of metropolitan cities and the vast geographic landscape that spans regional and remote areas. It offers numerous case studies and innovative school mental health programs as well as recommendations for professional development and advocacy that are unique to Australian school psychology. Topics featured in this Handbook include Evidence-based assessment and intervention for dyscalculia and mathematical disabilities; Identification and management of adolescent risk-taking behaviors and addictions; Understanding and responding to crisis and trauma in the school setting; Prevention and intervention for bullying in schools; Class and school-wide approaches to addressing behavioral and academic needs; The role of school psychologists in the digital age; Practical advice for school psychologists facing complex ethical dilemmas. The Handbook of Australian School Psychology is a must-have resource for researchers, scientist-practitioners and graduate students in child and school psychology, social work and related fields that address mental health services for children and adolescents.
