

Research Paper

The purpose of your research is to provide the reader with **background information** about your problem.

- This portion needs to be **typed** with **12 point**, legible, font and should be double-spaced.
- You must have at least **three** different sources for your research. Only one source may be an encyclopedia. These sources will be **cited** in your bibliography.
- The title of this page is your problem statement/question

Paragraph 1. Introductory Paragraph

- The first paragraph should begin with an interesting fact, an intriguing statistic, or a relevant quote related to your topic.
- Explain why your problem is important
- Introduce what you plan to cover in your paper.

Body of research. (2 paragraphs)

- Should focus on the topics connected to your problem.
- Should provide the reader with the necessary information to fully understand the problem you plan to investigate

Final Paragraph. Conclusion

- Summarize the information you presented in the body.
- **Your hypothesis** should be introduced here. – A **hypothesis** is an educated guess about the possible solution to your problem. This is a single sentence beginning with the words "I think" and contain an "if-then" statement.
- End the concluding paragraph with a brief (1-2 sentences) description of the experiment you plan to conduct.

Before you Begin:

- You must gather pertinent information for your report. We will work in library a couple days.
- As you examine each source, make a separate note of each fact or quotation you might want to use in your paper. This must be done on index cards.
- Each index card must include the source of the information (author's name and page number and date of publication)
- Try to summarize the information in your own words (paraphrasing)
- Use quotation marks if you copy the information exactly. (even if you just copy a phrase)
- These sources will also be used for your Bibliography page.

Research in Education, 1974 Linguistic Diversity and Teaching Nancy L. Commins, Ofelia B. Miramontes, 2006-04-21

Linguistic Diversity and Teaching raises questions and provides a context for reflection regarding the complex issues surrounding new English learners in the schools. These issues exist within a highly charged political climate and involve not only language but also culture, class, ethnicity, and the persistent inequities that characterize our educational system. The text addresses these issues through conversations among experts, practitioners, and readers that are informed by representative case studies and by a range of theoretical approaches. It is designed to engage readers in beginning to evolve their own practical theories to help them explore and perhaps modify some basic beliefs and assumptions and to become acquainted with other points of view. Throughout, readers are encouraged to interact with the text and to develop their own perspective on the issue of linguistic diversity and teaching. This is the fourth volume in *Reflective Teaching and the Social Conditions of Schooling*, A Series for Prospective and Practicing Teachers, edited by Daniel P. Liston and Kenneth M. Zeichner. It follows the same format as previous volumes in the series. Part I includes four cases dealing with different aspects of the impacts of the changing demographics of public schools. Each case is followed by space for readers to write their own reactions and reflections and a set of reactions to the cases written by prospective and practicing teachers, administrators, and professors. Part II presents three public arguments representing very different views about linguistic diversity in public schools: English should be the only language of instruction; all children should receive instruction in both their first language and English; planning for instruction should be based not on absolutes but on what is realistically possible in particular settings. Part III offers the authors' own interpretations of the issues raised throughout the text, outlines a number of ways in which teachers can continue to explore these topics, and includes exercises for further reflection. A glossary and annotated bibliography are provided. This text is pertinent for all prospective and practicing teachers at any stage of their training. It can be used in any undergraduate or graduate course that addresses issues of language diversity and teaching.

Resources in Education, 1997-04 *Science Fair Warm-up* John Haysom, 2013

Answer the questions and face science fairs without fear with help from the *Science Fair Warm Up* series. The teachers guide lets you make best use of the original investigations and problem solving exercises provided by each of the grade appropriate student editions. The *Science Fair Warm Up* series consists of three books; each book builds on the ideas introduced in the previous book, and the problems in the later books are progressively more challenging. The series field tested material will help your students develop the inquiry skills to carry their projects through, whether they're middle schoolers preparing for their first science fair or high schoolers ready for very challenging investigations.
