Index Practices and Perspectives of Teaching and Teacher Education in Africa Boadu, Gideon, Odhiambo, George, Marandi, Pegah, 2023-09-25 Teacher education is a known variable that impacts the quality of teaching and schooling yet while research on practices in teaching and teacher education abound in other contexts there seems to be no comprehensive reference work on teaching and teacher education in Africa With Africa and the diaspora boasting rich diverse political and educational contexts and practices this gap in knowledge requires that attention be focused on investigating issues that shape the pace course and direction of teaching and teacher education in these contexts Practices and Perspectives of Teaching and Teacher Education in Africa facilitates scholarly discussions among scholars and practitioners about practices innovations and future possibilities for educating the next generation of competent students and teachers in Africa Covering topics such as educational reforms equity career progression and curriculum development this major reference work is ideal for administrators industry professionals researchers academicians scholars practitioners instructors and students **Looking beyond Words**, 2024-06-11 In today's digital age visual representation plays a significant role in shaping our world This book explores the topic of visual research methods and their relevance to education It highlights the use of visual media such as images and videos to enhance our understanding of complex concepts and phenomena By integrating visual research into education we can gain a comprehensive understanding of abstract ideas leading to better retention and application of knowledge Additionally visual research methods provide multiple perspectives on social phenomena motivating us to initiate social change The book features contributions from scholars worldwide who discuss various methodological perspectives and applications of visual research in education Topics include visual inquiry methodology techniques for analyzing visual data and the use of photovoice Each chapter reviews the literature on a specific visual method addresses methodological challenges strengths and limitations and explores its contributions to education research Overall this book offers valuable insights into the power and potential of visual research methods in education providing a platform for scholars to share their expertise and promote the use of visual methods in educational research Contributors are Hendrik Zoltan Andermann Chang Cai Yanli Cao Helen Hanna Qing Huang Wei Jin Guanyu Li Ning Luo Patrica A L Ong Miao Pei Hing Kwant To Kwok Kuen Tsang Ting Wang Zeyu Wang Ziaoyu Wang E Jayne White Rui Xiong Boris Zizek and Zhaolin Zhou **Emotions and Affect in Language Learning** Larisa Nikitina, 2025-04-17 This book explores emotions and affect in language learning during total lockdown during the early phase of the COVID 19 pandemic when all teaching and learning activities had to transition online Having classes online and learning in lockdown was an unknown disconcerting and emotionally saturated experience for both the teachers and their students majoring in foreign languages To explore this the author conducted a study at a Malaysian university using perezhivanie a concept introduced by Lev Vygotsky 1896 1934 as a theoretical foundation for pedagogically oriented research on affect and emotions It refers to an

intense emotional lived through experience that often leads to a qualitative change within an individual To capture the students experiences of learning in total lockdown she also employs photovoice methodology as an analytical approach In her book Nikitina demonstrates using the photovoice method to capture the emotional ebbs and flows inherent in perezhivania The theoretical framework of perezhivanie and novel photovoice methodology adopted in this book can be employed in future explorations of emotional labours of students and their teachers in a wide range of educational settings This book s theoretical anchoring robust methodology and rigorous analysis of visual and linguistic data findings presented in this book will contribute to a better understanding of learning and teaching during challenging circumstances for students and academics of applied linguistics psychology of language learning or second language acquisition Photographic Elicitation and Narration in Teachers Education and Development Antonio Bautista García-Vera, 2023-01-23 This open access book discusses the functionality of the use of the language of photography in teachers initial and ongoing training It analyzes the nature of photography as a representation system facilitating inquiry and reflection on its practice for teachers and evocating on theories and beliefs that may guide their work in classrooms Photography is used to represent symbolically and affectively possible contradictions in teaching activities or the inconsistencies between planned teaching tasks and the educational purposes pursued Resolving these conflicts is one of the ways to promote professional development This book also describes photo elicitation and photographic storytelling as work procedures By analyzing the contributions of these techniques the development of teachers is improved Yamada: Knowledge, Education and Social Structur ,2023-06-27 In searching for the potential that lies in African societies the chapters of this volume consider relationships between knowledge education and social structure from multiple angles from a macro continental scale to national education systems schools and local communities The themes that cut across the chapters include education as a mode of transmitting values the contrasting effects of school credentials and knowledge for use politics and interactions among people surrounding a school and knowledge acquisition as a subjective process The rich empirical analyses suggest that the subjective commitment of and mutuality among people will make the acquired knowledge a powerful tool for conviviality to realize a stable life even given the turmoil created by rapid institutional and environmental changes that confront African societies Visual Pedagogies ,2022-12-12 This international collection presents theoretical empirical and practice led considerations of what can be envisioned as visual pedagogies offering classic creative and contemporary re workings of these paradigms In complementary yet overlapping parts this book explores understandings of visual pedagogies as learning with through and or about images visual and digital environments embodied performances and immersive experiences As visual practices in academia gain momentum the need to navigate visuality in ways that enhance sensibility and awareness of how what we observe analyze criticize and reflect on in any given moment continues to grow We understand visual pedagogies as nomadic in the sense that the how and the what of image centered learning is not separable What does this mean First it means

recognizing pedagogical practices as always already implicated In other words the form itself carries its own message Visual pedagogies respond to and are actualized within the cultural contexts in which they are working At the same time they carry the possibilities of being taken up in diverse ways beyond one particular context As living morphing practices visual pedagogies expand on contextual affordances while at the same time providing the means of exceeding them Thus there are folk literacies in perpetual movement that are producing visual pedagogies where points of traction for theorizing and research can form These then can be mobilized as springboards for analysis and examination of how visual pedagogies become apparent This book takes up multiple diverse contexts through an international selection of authors The parts work to address conceptual empirical and practical considerations through different emphases yet in conversation with each other

**La fotografía en la formación del profesorado** Antonio Bautista García-Vera, 2019-07-15 La funcionalidad que aporta el lenguaje de la fotografía en situaciones de formación del profesorado es uno de los rasgos que confieren a este libro su carácter extraordinario. La fotografía se emplea para facilitar a los docentes la indagación y reflexión sobre su práctica y para evocar las teorías y creencias que orientan sus trabajos en aulas y escuelas. Asimismo se usa para representar simbólicamente y afectivamente las incoherencias entre las tareas de enseñanza planteadas y los fines educativos perseguidos. La resolución de esos conflictos es una de las formas de promover el desarrollo profesional docente. Otro indicador que muestra el interés de este libro es el fin formativo de procedimientos de trabajo como la foto-elicitación y la narración fotográfica porque desde hace tres décadas en el campo de las ciencias sociales se han utilizado principalmente para recoger datos en metodologías de investigación cualitativa. La fotografía nutre de sensibilidad artística la formación de maestros y maestras para afrontar la incertidumbre y dificultades especiales emergentes y por lo tanto para hacer mejor su trabajo cada día.

*Exploring Diary Methods in Higher Education Research* Xueming Cao, Emily F. Henderson, 2021-03-28 This methodologically oriented collection brings together higher education diary research studies from international contexts to showcase the versatility of the method and its adaptability to higher education research. While keeping a diary is a familiar personal practice, diary method is a neglected form of research in higher education studies as well as the social sciences more broadly. This book showcases the range of options within diary method as well as the benefits and challenges that this fascinating but mysterious method may bring to students and academic researchers alike. The benefits and the risks and challenges of diary research are discussed across the empirical studies included in the volume. Using a variety of solicited diary techniques including audio-written and photo diaries and focusing on different aspects of higher education including undergraduate and postgraduate students and academics, these studies include salient topics such as LGBTQ identities, faith, caring responsibilities, international students, socioeconomically disadvantaged students, and employability. This important contribution to methodological innovation in the higher education research field promotes diary method as a viable option in social sciences and beyond. Whether new to the method or a seasoned diary researcher, this book is ideal reading for anyone who would like to learn the fundamentals of diary research and explore its feasibility in empirical contexts.

Critical Visual Methods to Advance Racial Justice in Educational Research Angela M. Wiseman, Marva Cappello, Jennifer D. Turner, 2025-09-23 Critical Visual Methods to Advance Racial Justice in Educational Research advances critical research methodologies for analyzing visual and multimodal data with particular attention to racial justice and minoritized communities. It presents innovative theoretical frameworks and analytical approaches for examining how visual representations impact, perpetuate, and potentially transform systemic inequities in educational research. Organized into three sections, this book explores analytic frameworks, methods for critical visual analysis, and visual praxis in schools and communities. Contributors weave together transformative theories while demonstrating innovative approaches to visual

analysis including photovoice collage slow looking and radical curation that center participant perspectives The book showcases rigorous approaches to analyzing visual data while maintaining methodological depth Key findings illustrate how visual methodologies can reveal hidden power structures document lived experiences and generate new knowledge about how minoritized communities engage with and create visual meaning The work advances understanding of perspectives across the lifespan from children to youth to adults through visual and multimodal research methods This book is designed for emerging and established educational scholars interested in critical visual and multimodal methodologies and serves as an ideal text for undergraduate and graduate research courses It offers valuable insights for researchers studying representation identity and equity while advancing innovative approaches for analyzing visual and multimodal data in educational research
