**Easy Test Prep** Brian K. Saltzer,Eric Stimmel,2014-02-05 The Easy Test Prep series originated in the fact that students simply don t need another textbook on Algebra Calculus etc There are already wonderful textbooks on the market in almost every area of mathematics and science What struggling students do need are more detailed worked examples than are normally found in even the best textbooks To solve this problem every book in the Easy Test Prep series contains hundreds of problems with both answers and detailed worked solutions In this volume Easy Test Prep Precalculus each of the major concepts in a standard Precalculus course is given its own section and problems After a list of the problems for a concept the answers are given so that students can compare their answers to the correct ones Following the answers are detailed worked solutions to each problem The answers are given first because many students do not want to see a worked solution immediately upon finding that their answer is not the correct one At the end of the book are two Final Exams that test whether or not the student has grasped all of the concepts in the book Our sincere hope is that this book will aid you in your goal of attaining both a higher course grade and a deeper understanding of Precalculus
