Precalculus Mark Dugopolski, 2016-01-27 Note You are purchasing a standalone product MyLab Math does not come packaged with this content If interested in purchasing this title with MyLab Math please order ISBN 9780134265308

Precalculus Mark Dugopolski, 2002-05 This text is designed for a variety of students with different mathematical needs For those students who will take additional mathematics the text will provide the proper foundation of skills understanding and insights necessary for success in further courses For those students who will not pursue further mathematics the extensive emphasis on applications and modeling will demonstrate the usefulness and applicability of mathematics in the world today Many of the applied problems in this text are actually real problems that people have had to solve on the job With an emphasis on problem solving this text provides students with an excellent opportunity to sharpen their reasoning and thinking skills With increased critical thinking skills students will have the confidence they need to tackle whatever future problems they may encounter inside and outside the classroom This text is technology optional With this approach teachers will be able to offer either a technology oriented course or a course that does not make use of technology For departments requiring both options this text provides the advantage of flexibility

Precalculus Mark Dugopolski, 2004-03 With faster pacing and less review this is the perfect text for those students in precalculus who are going on to calculus clarity without compromise A hallmark of this text is its focus on problem solving Students are provided with numerous opportunities to reason and think their way through various problems The author's goal is to get the students to see that the mathematics in this book is interesting useful and worth studying Emphasis is placed on using graphic numeric and analytic points of view in discussing and in solving problems throughout the text

Precalculus with Limits Mark Dugopolski, 2002 Building on Mark Dugopolski's name this graphing optional text is designed for the one or two semester precalculus course and includes coverage of analytic geometry vectors and the limit With faster pacing and less review this is an excellent choice for those students going on to calculus
