Recognition Exercises that many instructors will likely identify to be similar to worksheets they have personally developed for distribution to students. The intent of the Problem Recognition exercises is to help students overcome what is sometimes a natural inclination toward applying problem solving algorithms that may not always be appropriate. In addition, the exercise sets have been revised to include even more core exercises than were present in the first edition. This permits instructors to choose from a wealth of problems allowing ample opportunity for students to practice what they learn in lecture to hone their skills and develop the knowledge they need to make a successful transition into College Algebra. In this way, the book perfectly complements any learning platform whether traditional lecture or distance learning; its instruction is so reflective of what comes from lecture that students will feel as comfortable outside of class as they do inside class with their instructor. For even more support, students have access to a wealth of supplements including McGraw Hill's online homework management system MathZone.
