Saunders, Urban Planning Today reports on projects in Atlanta Boston Chicago New York and Portland bringing perspectives of urban design city planning criticism and law to bear on the mixed bag of results observed in these cities Australia, the Recreational Society David Mosler, 2002-01-30 From its very inception Australia has been a derivative society First as part of the British Empire and then soon after World War II what Mosler considers the American Empire and the new end of century Americanized global culture This has meant that Australia has struggled to attain its own identity Mosler explores that struggle for national independence a struggle that seems to be doomed to failure According to Mosler the reasons for this failure lie in Australia's propensity to remain a recreational culture a culture more attuned to pleasure and dependence than regimented hard work and the concomitant collective pattern of national assertiveness The Australian economy defense arrangements culture and psychology have been dominated by other nations and transnational forces The prospects for the nation in the future appear to be somewhat grim unless this historical pattern of dependence and lack of respect indeed almost contempt for national institutions is reversed A provocative analysis that will be of interest to scholars students researchers and anyone interested in Australian history and contemporary life and culture The Film Weekly, 1961 Sydney's Food Landscapes Joshua Zeunert, Alys Daroy, 2025-06-20 The story of Sydney's metropolitan food landscapes is one of dramatic transformations of First Nations land amidst jostles for power and wealth This book unearths Sydney's lost commercial agriculture since colonisation in 1788 to assess its fragile food futures Richly illustrated 270 images are encapsulated within 110 figures including an array of original metropolitan scale mappings Discussion traverses the city's diverse cultural influences from Indigenous land management to British pastoralism Chinese cultivation of Sydney's backyard

vegetable garden and southern European farming spawning billion dollar empires The region has further been shaped by a vast array of cultural and ideological factors and material practices with relevance to planning policy ethics geography heritage art design and technology This book is the first to bring Sydney s disparate post colonial food histories together in one volume to explore the dynamics and tensions between urban growth and food production The relevance of Sydney s food landscapes therefore extends far wider than the city itself with implications for countless regions worldwide in a time of increasing climate and resource precarity Decolonising Medieval Fennoscandia Solveig Marie Wang,2023-03-20 The interdisciplinary study investigates the relationship between Norse and Saami peoples in the medieval period and focuses on the multifaceted portrayal of Saami peoples in medieval texts The investigative analysis is anchored in postcolonial methodologies and argues for the inherent need to decolonise the medieval source material as well as recent historiography This is achieved by presenting the historiographic and political background of research into Norse Saami relations before introducing an overview of textual sources discussing Saami peoples from the classical period to the late 1400s an analysis of the textual motifs associated with the Saami in medieval literature their relevance and prevalence geo political affairs trading relations personal relations and Saami presence in the south By using decolonising tools to read Norse Saami relations in medieval texts influenced by archaeological material and postcolonial frameworks the study challenges lingering colonial assumptions about the role of the Saami in Norse society The current research episteme is re adjusted to offer alternative readings of Saami characters and emphasis is put on agency fluidity and the dynamic realities of the Saami medieval pasts

Reimagining Christendom Joel D. Anderson,2023-01-03 With its expanding legal system and its burgeoning throngs of lawyers legates and documents the papacy of the thirteenth and fourteenth centuries has often been credited with spearheading a governmental revolution that molded the high medieval church into an increasingly disciplined uniform and machine like institution Reimagining Christendom offers a fresh appraisal of these developments from a surprising and distinctive vantage point Tracing the web of textual ties that connected the northern fringes of Europe to the Roman see Joel D Anderson explores the ways in which Norse writers recruited refashioned and repurposed the legal principles and official documents of the Roman church for their own ends Drawing on little known vernacular sagas Reimagining Christendom is populated with tales of married bishops fictitious and forged papal bulls and imagined canon law proceedings These narratives Anderson argues demonstrate how Norse writers adapted and reconfigured the institutional power of the church in order to legitimize some of the thoroughly abnormal practices of their native bishops In the process Icelandic clerics constructed their own visions of ecclesiastical order visions that underscore the thoroughly malleable character of the Roman church s text based government and that articulate diverse ways of belonging to the far flung imagined community of high medieval Christendom *National Heroes and National Identities* Linas Eriksonas,2004 This book investigates the concept of the heroic questions what it is that makes the national hero an indispensable appendage to any possible interpretation of

national identity and asks why scholars stop short before coming to terms with this elusive phenomenon It finds answers by following heroic traditions in Scotland Norway and Lithuania from the early modern period to the twentieth century The book argues that heroic traditions prevailing trends in situating heroes in national history owe much to the early modern state Both national heroes and the nation state had been conceived with a similar moral political mindset that looked for new ways to identify sources for commonality The confluence of political theory and Realpolitik attested to three classical types of polities i e civitas popularis democracy regnum kingship and optimatum aristocracy as found at that time in Scotland Norway and Lithuania respectively The author shows the varied impact these patterns had on heroic traditions The long record of national heroes in Scotland is explained as a vestige of the legacy of civic humanism the continuing traditions of the heroic king lines in Norway are seen as a result of long standing absolutism while the belated arrival of national heroes in Lithuania is excused by the country s aristocratic if at times oligarchic past **The Statesman's Year-Book 1962** S.
