Clover, John Lindow, 2019-06-30 The current revival of interest in the rich and varied literature of early Scandinavia has prompted a corresponding interest in its background its origins social and historical context and relationship to other medieval literatures Even readers with a knowledge of Old Norse and Icelandic have found these subjects difficult to pursue however for up to date reference works in any language are few and none exist in English To fill the gap six distinguished scholars have contributed ambitious new essays to this volume The contributors summarize and comment on scholarly work in the major branches of the field Eddie and skaldic poetry family and kings sagas courtly writing and mythology Taken together their judicious and attractively written essays each with a full bibliography make up the first book length survey of Old Norse literature in English and a basic reference work that will stimulate research in these areas and help to open up the field to a wider academic readership

Iron Age Myth and Materiality Lotte Hedeager, 2011-04-29 Iron Age Myth and Materiality an Archaeology of Scandinavia AD 400 1000 considers the relationship between myth and materiality in Scandinavia from the beginning of the post Roman era and the European Migrations up until the coming of Christianity It pursues an interdisciplinary interpretation of text and material culture and examines how the documentation of an oral past relates to its material embodiment While the material evidence is from the Iron Age most Old Norse texts were written down in the thirteenth century or even later With a time lag of 300 to 900 years from the archaeological evidence the textual material has until recently been ruled out as a usable source for any study of the pagan past However Hedeager argues that this is true regarding any study of a society's short term history but it should not be the crucial requirement for defining the sources relevant for studying long term structures of the *longue durée* or their potential contributions to a theoretical understanding of cultural changes and transformation In Iron Age Scandinavia we are dealing with persistent and slow changing structures of worldviews and ideologies over a wavelength of nearly a millennium Furthermore iconography can often date the arrival of new mythical themes anchoring written narratives in a much older archaeological context Old Norse myths are explored with particular attention to one of the central mythical narratives of the Old Norse canon the mythic cycle of Odin king of the Norse pantheon In addition contemporaneous historical sources from late Antiquity and the early European Middle Age the narratives of Jordanes Gregory of Tours and Paul the Deacon in particular will be explored No other study provides such a broad ranging and authoritative study of the relationship of myth to the archaeology of Scandinavia *Catalogue of Works (other Than Parliamentary Papers and Acts of Parliament)* Published by His Majesty's Stationery Office Great Britain.
